Vol. 1—No. 151 GLENDALE (LOS ANGELES POSTOFFICE), CALIFORNIA, FRIDAY, AUGUST 26, 1921 FIRST SECTION

"SWINDLE TRUST" ARRESTS MADE IN LOS ANGELES

Wife of Brains of Gigantic Fraud Organization and Col. Geo. C. Ball of Los Angeles to be Taken Into Custody on Request of Chicago Investigators of Huge Schemc.

CHICAGO, Aug. 26.—Arrest of two business men of Los Angeles, and a woman in San Diego, was expected today as a result of investigations being made by federal officials into the alleged fradulent financial deals of Charles W. French, "Honest John" Worthington and their associates. Investigation also was being made of the circumstances that led to the suicide in Minneapolis of A. E. Roberts, believed to have been one of French's agents.

One of the men whose arrest has been asked of Los Angeles authorities is Col. George C. Ball, 694 South Burlington avenue. He is said to have had dealings with the French-Worthington band for a period of five years. His name appears scores of times in documents seized from French and Worthington. The name of the second Los Angeles man has not been disclosed.

The woman whose apprehension is desired is Mrs. Charles W. French, wife of the selfstyled financial wizard. She has been living on a ranch near San Diego and federal officers believe she has important knowledge of her husband's activities.

Several days ago Roberts is said to have wired Rudolph E. Kohn, an alleged Chicago member of the band, asking for $5000 immediately. Kohn was under arrest and did not reply. Roberts' body was found in Lake Harriet at Minneapolis late yesterday.

Royalty Escaped Net

The trail of "frenzied finance" tracked through the world of business by the the Worthington-French band of "financial pirates" led to the blue blooded environs of British royalty, according to revelations made here today.

It was learned that members of the British royal family in London barely escaped being dragged into "sucker net" of the Worthington-French band.

The plot which was to involve royalty, included the formation of a gigantic $500,000,000 "world merger" to fight the United States Steel Corporation, the American Rubber "trust" and the "coal trust."

These startling facts were gained by federal agents today from a "little brown book" owned by Alva W. Harshman of Milwaukee, the government's chief witness against the band.

Erin Asserts "Rights of Small Nations"; England Makes Reply

By DANIEL O'CONNELL
I. N. S. Staff Correspondent

DUBLIN, Aug. 26.—Eamonn de Valera today was unanimously elected president of the Irish republic by Dail Eireann (Sinn Fein parliament). He was nominated by Commandant John Mackeown of the Irish republican army, a member of Dail Eireann.

"No Irish leader has ever equalled de Valera," said Mackeown, in his nominating speech. "He met the English as a soldier and beat them. He now is meeting them as a statesman and will beat them there. He has done more for Irish freedom than all the previous leaders."

"We mean to stand upon our present position," said de Valera, addressing the parliament. "We will not quit it because it is fundamentally right."

All the members of the Sinn Fein cabinet were re-elected.

Michael Collins, commander-in-chief of the Irish republican army, moved that the republican government float new loans of $20,000,000 in the United States and $2,000,000 in Ireland.

"All the arrangements for making the loan in the United States have been completed," said Collins. "All that is needed is the formal word to go ahead."

LONDON, Aug. 26.—Premier Lloyd George in his rejoinder to the Sinn Fein note rejecting the English peace proposals, offered this afternoon to continue the negotiations with the Irish Republicans.

The communication was received on behalf of the Sinn Fein by Art O'Brien, head of the Irish Self-Determination League and the so-called "Sinn Fein ambassador in London."

The reply was drafted by a cabinet committee this afternoon, following a conference between Premier Lloyd George and Sir Hamar Greenwood, chief secretary for Ireland. The Sinn Fein note, which had been handed to the premier yesterday afternoon, had previously been discussed by the ministers.

It is expected that the British note will be published tonight.

LONDON, Aug. 26.—While Dail Eireann has rejected Llyod George's peace proposals, the Irish Republicans are willing to continue negotiations through a peace commission, it was revealed today when the text of Eamonn de Valera's reply was published.

"Dail Eireann, by unanimous vote, has rejected the proposals of your government," says the document. It adds further on:

Opens Door

"However, if on a broad basis peace can be secured, we are willing to appoint negotiators."

"I cannot believe," continued de Valera's message, "that your government intends to commit itself to the principle of sheer militarism which is destructive to international morality and fatal to the world's peace.

"If small nations have their right to independence forfeited when more powerful neighbors covet their territory for military advantages, there is an end to liberty and no longer can any small nation claim the right to separate sovereign existence."

Demand for Ultimatum

It is learned from an authoritative source that there is a strong section of England demanding that the British rejoinder to de Valera's communication be in the form of an ultimatum fixing a time limit for acceptance of the principle of the English peace offer by the Sinn Fein. It is charged that the Irish Republican army is taking advantage of the truce to reorganize.

Right of Small Nations

De Valera emphasizes the "right of small nations." His communication continued:

"Holland and Denmark could be made subservient to Germany. Belgium could be made subservient to Germany or France. Portugal could be over-awed by Spain, and so on. To speak of Ireland seceding from a partnership she has never accepted and from an allegiance she has never undertaken to render, is fundamentally false, just as the claim that we must subordinate our independence to the interests of British strategy, is fundamentally unjust.

"If the refusal to betray our nation's honor be made an issue for war with Great Britain, we should deplore it. We are conscious of responsibilities

(Continued on Page 2)

TERROR CHECKED IN WEST VIRGINIA MINER'S REVOLT

MADISON, Wis., Aug. 26.—C. F. Keeney, of Charleston, president of District No. 1, United Mine Workers of America, left here this morning to head off the invasion of Logan county by 5000 armed union miners. Just before leaving, Keeney said he had been advised that the sheriff of Logan county had machine guns planted covering all roads and that airplanes were loaded with bombs, and any attempt to march through Logan county would mean a massacre of the union miners' forces. Keeney made haste to reach the men before bloodshed resulted.

The marchers left Racine today for Madison and will not reach here until late this afternoon or night. The miners' army is 12 miles from here now.

Published reports that Sheriff Don Chafin of Logan county and 300 deputies had engaged in battle late Thursday with the miners' army, were flatly denied by both Keeney and local authorities here.

FEDERAL TROOPPS NOT NEEDED

WASHINGTON, Aug. 26.—There is no immediate necessity for the dispatch of federal troops into West Virginia, General H. H. Bandholtz, who was sent to West Virginia to investigate conditions, reported to acting Secretary of War Wainwright today. General Brandholtz recommended, however, that there should be troops held in readiness for movement to West Virginia. He will remain on the ground to continue his investigation.

Secretary Wainwright and Chief of Staff Harboard communicated the report to the President and it is expected the recommendations of General Bandholtz will be followed.

MADISON, W. Va., Aug. 26.—The vanguard of the miners' army, 250 strong, reached Madison at 11:30 o'clock today and proceeded to march through the town. Just then F. C. Keeney, president, and Fred Mooney, secretary of District 17, United Mine Workers, dashed up and overtook the men. Keeney hurriedly explained that the men must end the march at once or face slaughter at Logan. He also told them they would have to face United States regulars if they did not. The outpost turned back and are awaiting the main body, which is expected momentarily.

HAGEN TIES HUTCHINSON

OAKWOOD COUNTRY CLUB, CLEVELAND, Ohio., Aug. 26.—Walter Hagen, of Detroit, and Jock Hutchinson, of Chicago, present open champion, tied for first place at the end of the third round in the western open golf championship, here this afternoon by turning in cards of 73. This gave each a total score of 216.

CHICAGO FEUDIST KILLED

CHICAGO, Aug. 26.—Another victim was charged to Chicago's bitter Sicilian feud today, when Dominie Cuttillo, retired grocer, was shot to death in the "bloody Nineteenth Ward." Three assailants fired five bullets into his body and then hacked away at his fallen form with stilettos. The murder occurred within a few feet of the spot where Joseph Laspisa was slain a few weeks ago.

GERMAN PACT AIDS AMERICAN CLAIM TO YAP ISLAND

Harding to Decide On Withdrawal of Troops Under Terms of Treaty

By DAVID M. CHURCH
I. N. S. Staff Correspondent

WASHINGTON, Aug. 27.—The United States and Germany having entered into a formal peace treaty, President Harding and his cabinet today are confronted with the problem of new and important decisions.

The treaty of peace with Germany, published here last night, discloses that all of the rights of the United States in the Versailles treaty are protected while this nation is not bound by any of the responsibilities of that pact. It now remains for the President and his advisers to determine whether they wish to accept any of the responsibilities of the Versaillès pact.

The outstanding decisions which it appears must soon be made by the President is with regard to the American army of occupation in Germany. These forces have been maintained in Germany under the terms of the armistice entered into November 18, 1918. The treaty just concluded also concludes that armistice.

Under the present treaty the United States may still decide to maintain its forces in Germany under the terms of the Versailles pact, but it is not bound to do so. Nevertheless, in army circles the opinion prevails today that the American army of occupation would be maintained, although it might be very greatly reduced. The treaty confirms all concessions made by Germany in the Versailles pact and therefore is a confirmation of the right of the United States to its claims upon the Island of Yap.

Girder by this confirmation from Germany in the Yap concession, the United States is in a position to push the claim that the Pacific island be internationalized, for this nation does not recognize the mandate handed over to Jaapn by the supreme council. What steps in the Yap controversy will follow the singing of the Geman treaty are still a matter of conjecture.

Resumption of diplomatic relations with Germany, which becomes effective upon ratification of the treaty by the Senate of the United States, and the German Reichstag, leaves for President Harding the task of selecting an ambassador to Germany. Though many names have been mentioned for this post, the one most frequently heard in circles close to the administration is that of David Jayne Hill.

A domestic problem of importance which confronts the President as the result of the signing of the treaty is that of amnesty for the so-called political prisoners. Some months ago when an amnesty delegation called upon the President and urged freedom for Eugene V. Debs and others now in prison for war offenses, the chief executive stated that he did not feel that he could grant amnesty while the United States was still technically at war with Germany. It remains to be seen whether the President will now feel it proper to release these prisoners.

EXHUME BODY

HOLLIDAY, Mo., Aug. 26.—Belief that he died from poison a month after his marriage, caused officers to exhume the body of Monroe Dawson, East St. Louis broker, here today. The viscera was sent to the state chemist at Columbia for analysis.

Dawson, 45, died three weeks ago. He left an estate valed at $50,000. Exhumation of the body was ordered upon request of Illinois officials following allegations of Dawson's relatives.

THREE IDENTIFIED

WASHINGTON, Aug. 26. — Only three of the bodies recovered from the wreck of the ZR-2 have been identified, according to a cable to the navy department today. The identified bodies are those of Flight Lieut. R. F. Montague, R. A. F.; Lieut. M. H. Esterly, U. S. N., and Lieut. C. E. Little, U. S. N.

BODIES OF VICTIMS BURIED IN SILT OF RIVER BED

Dirigible Already Submerged in Shifting Bottom—Big Crane Is Working

HULL, Eng., Aug. 26.—A hundred ton floating admiralty crane arrived here today to attempt to lift the wrecked body of the dirigible ZR-2 at low tide. The wreckage was so deep in the mud and sand at the bottom of the Humber river that little hope was entertained that any of it could be salvaged. No more bodies have been recovered and hope was fast dwindling this afternoon that any of the missing British and American air sailors would ever be found.

Police and British army men patrolled the Humber about the scene of the ill-fated ZR-2 all night long.

Divers reported that the metal parts of the airship were almost completely covered with silt which had been washed up over it by the strong tide. The bodies that are believed to be underneath the wreckage are now buried many feet under the mud and sand.

Commander Dyer, an expert on areonautical construction, has been named to represent the navy at the investigation.

The board of inquiry will not sit until there has been a complete examination of the wreckage.

The inquest was scheduled to begin today but the coroner said it would not be completed for some time. The authorities desire to exhaust every effort for the recovery of more bodies before completing the inquest.

U. S. TO PAY HALF

WASHINGTON, Aug. 26.—The monetary loss incurred by the explosion of the dirigible ZR-2 will be borne jointly by the United States and Great Britain, the Navy Department announced this afternoon.

The Navy Department disclosed this morning that it was under an agreement with Great Britain that "in the event of the total loss of this airship while under construction or during trials, the two governments would jointly bear the loss on an equal basis."

RAILROAD UNIONS PREPARE FOR FIGHT

CHICAGO, Aug. 26.—"It is well in time of peace to prepare for war. Therefore, every member of our organization should preserve his money, his supplies of food and fuel."

This startling "war" announcement was issued in a statement today from the executive committee of the railway department of the American Federation of labor. The committee also condemned the action of the United States railway labor board in taking away extra pay for overtime work by railroaders. "The action is not justified," said the committee.

Another conference of rail labor chiefs will be held "in the near future" to determine whether "drastic action" shall be taken, the statement concluded.

The warning was sent out after a meeting of the executive board and executive council at which the recent "overtime" ruling of the labor board was discussed. The statement declares that the board made a serious mistake in issuing the decision. The union leaders declare flatly that they will not accept the decision.

"If in the end a satisfactory adjustment is not obtained," the statement declares, "and the membership by vote supports the position of this body with respect to this and other objectionable decisions which have or may be rendered, then there will be need for the use of the full power and strength of these organizations in collective action.

"Those who seek to take from the federated shop crafts these admittedly just and reasonable conditions of employment can only win if the membership becomes involved in a stoppage of work before legal sanction is granted by the organization."

This latter paragraph is taken as a warning against "runaway" or "outlaw" strikes among railway employes who are members of the unions.

City Bank Held Up Today By Five Bandits

$33,497 Taken By Bandits From Huntington Park Branch Of Los Angeles Trust And Savings Bank

LOS ANGELES, AUG. 26.—FIVE HEAVILY ARMED BANDITS TODAY HELD UP THE HUNTINGTON PARK BRANCH OF THE LOS ANGELES TRUST & SAVINGS BANK.

WHILE ONE BANDIT STOOD GUARD, THE OTHER FOUR ENTERED THE BANK. THE EMPLOYES WERE LOCKED IN THE VAULT AND CASH AND SECURITIES TO THE ESTIMATED VALUE OF $33,497 WERE TAKEN.

THE BANDITS ESCAPED IN AN AUTOMOBILE, DRIVING TOWARD LONG BEACH, AND ARE BEING PURSUED BY A POSSE OF DEPUTY SHERIFFS.

GLENDALE'S NEEDS INCREASES CITY TAX RATE

Glendale's tax rate for the year ending July 1, 1921, will be from 10 to 13 cents higher per hundred dollars assessed valuation than it was last year, according to the tax-fixing ordinance presented to the city council at its regular meeting last night, and which is to be passed by the council next Thursday night. This increase in the tax rate is a result of three things: The Library Board requires 5½ cents more per hundred dollars assessed valuation this year than it did last year, this being practically twice a smuch as was required to run the librarfes of the city last year; interest and principal on the park bonds will add another 2 cents, while the maintainance of parks and playgrounds will swell the total by 5½ cents per hundred dollars assessed valuation.

Library Demands

It is generally known that throughout last year the library board, in an effort to hold down expenses, refrained to buy many necessities and books and to make a number of improvements, which will have to be taken care of this year. This accounts for the demand for more library money. The first payment of principal and interest on the park bonds comes due this year and it will take 2 cents per hundred dollar assessed valuation, to care for these, while the 5½ necessary for the maintainance will go toward keeping the park in presentable condition.

Tax Levy To Be Made

The taxes will be levied upon the property in each of the portions of the city described and designated by letter as follows:

A—All that part of the city of Glendale included in the boundary thereof as originally incorporated.

B—All that territory annexed to the city of Glendale at annexation elections held October 4, 1911 and March 30, 1912, and known as the West Glendale district and the Verdugo Canyon district, respectively.

C.—All that territory annexed to the city of Glendale at an annexation election held April 20, 1916, and known as the Pumping Plant district and the Remington district.

D—All that territory formerly included in the city of Tropico.

E—All that territory annexed to the city of Glendale at an annexation election held January 20, 1919, and known as the Grand View Annexation district, and all that territory taken in at an annexation election held May 22, 1918, known as the Arden Avenue and Valley View Annexation district and all the territory annexed at an annexation election held August 7, 1918, known as the Kenilworth Annexation district.

District Rates

The rates for the various districts are as follows:

	1921	1920
A—total tax rate	$1.30	$1.20
B—total tax rate	1.29	1.19
G—total tax rate	1.26	1.14
D—total tax rate	1.32	1.21
E—total tax rate	1.23	1.10

Municipal District Tax

In addition to the foregoing taxes there is levied upon all taxable property located in that part of Glendale designated as Municipal Improvement District No. 3, a tax at a rate of 44 cents per $100 assessed value. This is to cover the interest and sinking funds on bonds voted by this district.

Also, in addition to regular taxes here stated, a tax is being levied on all taxable property in that part of the city of Glendale known and designated as Municipal Improvement District No. 4, a tax rate of 41 cents for each $100 asessed valuation. As in the foregoing instance this will go to pay the interest and sinking fund on bonds voted by this district.

LOS ANGELES GETS ROTARIANS

CHICAGO, Aug. 26.—The board of directors today selected Los Angeles as the 1922 convention city of the International Association of Rotary clubs.

World News To Press By Wire

DREAMS OF LYNCHERS

REDWOOD CITY, Calif., Aug. 26.—William A. Hightower, charged with the murder of Father Patrick E. Heslin, was in an extremely nervous state today as a result of a dream last night that a mob thirsting for his life had gathered outside the county jail.

"UNKNOWN HERO" MEMORIAL

YOSEMITE, Calif., Aug. 26.—Dedication of a giant Sequoia to the memory of the unknown American dead of the world war at Mariposa grove today brought to a close the third annual convention of the American Legion, department of California.

WOMAN'S GOLF FINAL

CHICAGO, Aug. 26.—Mrs. Melvin Jones of the Olympia Fields Club, Chicago, and Mrs. J. W. Douglass, of the West Moreland Club, Chicago, will meet tomorrow in the final of the women's Western Golf Association championship.

AUTO TOURIST KILLED

PUEBLO, Colo., Aug. 26.—Mrs. Mary Colgin was killed and Miss Frances Axtell and Miss Myrtle Robbins, all of Omaha, Neb., sustained serious injuries last night when an automobile in which the party was riding went over an embankment on a highway 15 miles north of this city.

FUNERAL OF GENERAL GREENE

SAN FRANCISCO, Aug. 26.—With ten tirplanes hovering overhead, strewing Market street with flowers, the funeral cortege of Major-General Henry Alexander Greene, organizer and commander of the Ninety-first (Wild West) Division, and veteran of 40 years' service in the United States Army, passed today from the Ferry building to the City Hall. There the body will lie in state until tomorrow.

AIR MAIL SUSPENDED

WASHINGTON, Aug. 26.—Air mail service between San Francisco and Salt Lake City will be suspended for three or four days, beginning tomorrow, the postoffice department announced today. Suspension of the service is made necessary by the moving of the landing grounds from Marina Field to Crissy Field in the army reservation at the Presidio, San Francisco.

REICHSTAG LEADER IS ASSASSINATED

LONDON, Aug. 2.....—Dr. Mathias Erzberger, a member of the German Reichstag, and former minister of finance in the German cabinet, has been murdered, said a press dispatch from Berlin this afternoon. Dr. Srzberger was long a leader of the centrum or clerical party.

RESIGNS LEADERSHIP OF CIGARET FIGHT

CHICAGO, Aug. 26.—Miss Lucy Page Gaston today tendered her resignation as head of the anti-cigarette league, an organization fighting for the abolishment of cigarettes.

"The work of the organization can now go forward unhampered by individual influences and leave Miss Gaston free to carry out her more drastic and prohibitory methods," said the board of directors in announcing the resignation.

HEAD OF PACIFIC MAIL CO. RESIGNS

SAN FRANCISCO, Aug. 26.—"Irreconciliable difference of opinion" with other officers of the company on "questions of administration and operation as well as the future of the company," caused the resignation of John H. Rosseter as vice-president and general manager of the Pacific Mail Steamship Company. Rosseter, one of the best known shipping men in the country, during the world was was director of operations of the United States shipping board. He has long been a leader in the movement to establish the American flag on all of the high seas with an adequate merchant marine.

JAPS STILL LEAD

NEWPORT, R. I., Aug. 26.—Two little brown sons of Nippon, Ichiya V. Kumagas and Zenzo Ihmidzu, were well on the highway to victory in the finals of the Davis cup ties which play was resumed here today against the Australians.

ENTERTAIN WITH DINNER

Mr. and Mrs. F. J. Rogrs of 535 North Kenwood street, are entertaining at dinner this evening for Mr. and Mrs. Ashley of Los Angeles. Marigolds from the garden of the hostess will center the table, and the dinner will be followed by an evening over the card tables.

SIDE LIGHTS ON CITY COUNCIL DOINGS OF LAST NIGHT

Mr. McNutt Suggests

P. S. McNutt, a resident of the Sierra Avenue district, and representing the people of that district as a whole, believes that several hundred dollars paid to the county for road purposes by the Sierra Avenue district, may and should be collected by the city, now that the district has voted to annex to Glendale. Mr. McNutt's communication to the council reads as follows:

"The Sierra Avenue district is entitled to several hundred dollars county road money from the supervisors of the county. We have not been able to get the county to spend any of this money on the roads of this district this year.

"Now that we have come into Glendale city, we believe that Glendale is entitled to the special tax levied for road purposes within the Sierra Avenue district, and that by properly applying to the county supervisors, it can be arranged that this money will be turned over to you. Then it can be used to fix up Sierra avenue, which is in need of repairs, and to have the ditches along the roadside cleaned out. Is this not correct?

"If this is possible we know you will take this matter up as soon as possible."

The city council was invited to send representatives to the coming convention of the League of California Municipalities. The invitation read as follows:

"Notice is hereby given that the 24th annual convention of the League of California Municipalities will be held at Santa Monica, September 27-30, 1921. All cities and towns in the state are urgently requested to send representatives to the meeting as matters of vital importance are coming up for consideration.

"The people of Santa Monica are making elaborate preparations for the occasion, in order that it may not only be enjoyable for those who attend, but also result in much good to the cause of better government."

At the meeting of the City Council last night, the city attorney was instructed to draft an ordinance amending the present motor bus ordinance so that it will be required that all persons or companies operating motor buses in Glendale must hereafter pay an annual license fee of $1 a bus, rather than to pay a straight $10 for the privilege of operating a general bus line business, regardless of the number of buses maintained.

It was decided that hereafter all requests for minor permits, such as permits to remove trees, erect oil stations, install cesspools, etc., shall be handled by the heads of departments to which they are generally referred. So much business is coming before the Council at its meetings these days that it was deemed wise that this step be taken.

The city attorney was instructed to draft an ordinance reestablishing the names of Palmer avenue and Cypress street at the points where the names of those streets were formerly changed to Sycamore Canyon boulevard. This move comes as a result of a decision not to run Sycamore Canyon boulevard farther south than 150 feet south of Windsor road.

An ordinance establishing the grade of a portion of Chestnut street was adopted.

The ordinance changing the salary of the city manager from $290 to $350 a month was read for the final time and adopted.

T. E. Litzenberg applied for a permit to construct a gas filling station on Glendale boulevard. After some discussion and changing of the details of the station as to location, etc., the permit was granted.

A. G. Smith applied for a permit to do street work by private contract at 506 Oak street. The permit was granted.

Another application to do street work by private contract was made by Judson M. Gibbs of Kenwood street. This was also granted.

A diagram of the proposed improvement work on Arden avenue was read and approved.

An application for the position of building inspector was presented by R. H. Wells of 339 West Harvard street. This application was referred to the city manager.

A check in the amount of $41.69 was received from the General Pipe Line Company of Los Angeles, which covers the payment for that corporation's franchise to run a pipe line through the western part of Glendale for the year ending July 1, 1921.

An ordinance establishing the grade of Maryland avenue from Dryden avenue north, was adopted.

A complaint was made against the piling of goods on the sidewalks by local merchants. After some discussion, it was decided to request the Glendale storekeepers not to obstruct the sidewalks hereafter with their wares.

A special meeting of the City Council will be held in the council chamber next Tuesday evening. The purpose of this session is to examine a number of candidates for positions on the Glendale police force.

The matter of appropriating the sum of $3500 from the general water and lighting fund to cover the cost of constructing a weir and pipe lines for the Ross reservoir was laid over for one week to give the members of the council more time to investigate the matter.

City Manager Reeves was appointed as a delegate to the coming convention of the League of California Municipalities, which is soon to be held in Santa Monica. It is the intention of the councilmen to personally attend this convention as much as possible.

ERIN ASSERTS "RIGHTS OF SMALL NATIONS"

(Continued from page 1)

toward the living, just as we are mindful of obligations to our heroic dead. We never sought and we do not seek war, but if war is made upon us we must defend ourselves.

"I shall remain confident that, whether our defense is successful or unsuccessful, no representative Irishman or Irishwoman, will ever propose that the nation surrender its birthright.

"We long for the end of the conflict. If your government is determined to impose its will by force and antecedent negotiations and insists upon conditions involving the whole of our national position, it would make the negotiations a mockery and the responsibility for the conflict would then rest with you."

Irish Interpretation

De Valera said he interpreted Premier Llyod George's letter of July 13 as meaning that the Sinn Fein was asked to accept the principle that the geographical propinquity of England and Ireland imposed upon Ireland subordination to the precedence of Great Britain's strategic interests.

The British cabinet was summoned to meet today to consider the Sinn Fein's communication rejecting the English peace offer. While the Irish answer is understood to be blunt in tone, government officials were hopeful that the negotiations will be continued. One optimistic feature was the report from Dublin that the letter avoids any reference to the previous demand for an Irish republic.

"Eamonn de Valera rejects the English proposals but wishes to continue the negotiations," said the parliamentary correspondent of the Daily Chronicle. "His letter is by no means satisfactory."

The British Viceroy of Ireland, Lord Fitzalan, was summoned to London to confer with Premier Lloyd George and Sir Hamar Greenwood, chief secretary for Ireland.

BURSON'S GIVE PARTY

Mr. and Mrs. Robert Burson are entertaining tonight with a beach party at Santa Monica, near Sugar Loaf. A big bonfire, where wienies and marshmallows will be toasted will feature the affair, the guest list including: Mr. and Mrs. Jack Hosley, Mr. and Mrs. Delmar Wheeler, Misses Frances Kinch, Evelyn Ashman, Dorothy Dutton, Harriet Cook, Dorothy Young and Margery Yarrick, Messrs. Frank Sullivan, Harry McClusky, Victor Francy and Paul Morgan.

BOY SCOUTS ENJOY CAMP AT LYTLE CREEK CANYON

Range Mountains and Stream Under Leadership of Director, Who Instructs

Boy Scouts of Glendale who have gone to Lytle Creek Canyon for their last vacation outing of this kind are evidently determined not to let any opportunities for good times get away from them.

Besides their enthusiastic scout director, H. Benjamin Robison they are accompanied by his father, Benjamin Robison, who is invested with all the romance of an old-time prospector who ranged the San Bernardino mountains and canyons in the early days and is familiar with all the legends and dramatic incidents of that period.

Following is a letter from H. Benjamin Robison, scout director, telling of the mid-week activities of the camp:

"Glendale Boy Scout Camp,
"Lytle Creek Canyon,
"August 25.

"Glendale Daily Press,

"Dear Paper:

"We boys are well and happy, having a fine time, with something doing all day long.

"Wednesday morning, during scout council, the first four scout laws were reviewed and plans were made for the day.

"Scout tests take up a part of the day and the boys are doing good work and successfully passing. After the Wednesday scout tests the boys played 'capture the flag' and 'in the haunted wood,' both games being long and strenuous and ending in a tie.

"Camp fire in the evening was a great success. Two short plays were put on and many brief stunts and jokes.

"After a rehearsal of songs and yells Benjamin Robison, Sr., scout master of Troop No. 2, told the story of the old Texas mine, which is situated about three miles from camp. The thrilling tale was very much enjoyed by the boys. He also told of 'Old Clubfoot,' a huge bear that was the terror of Lytle Creek for many years. Mr. Robison was an old-time prospector in the canyon and is familiar with all the tales of the mountains in that locality.

"H. Benjamin Robison, scout director, told a story of pirates and treasure, which caused the boys to beg him to make it a serial.

"Mrs. Benjamin Robison was a guest of honor at the camp fire.

"Two main streets have been established in our camp, which we hope will please our visitors when they come next Sunday—Trout avenue and Snora avenue, also Fish Corners.

"The kitchen is known as 'Smoky Hollow.'

"Thursday morning the boys will play games and in the afternoon swim in the Glen Ranch pool.

"H. BENJAMIN ROBISON,
"Scout Director."

MRS. FELL'S SISTER GOES EAST

Mrs. W. D. Chandler and daughter, Miss Marianna Chandler, of Madison, Wis., who have been spending the past nine months in California, and who are now the guests of Mrs. Chandler's sister, Mrs. Frank Fell, 195 Hillside Drive, are returning to their home in the Badger state, that Miss Chandler may resume her studies in the State University. She has been taking summer work at the Southern Branch, University of California.

Knights of Pythias Boost Glendale Lodge

The Knights of Pythias Lodge of this city has hitched its wagon to a star and is going to tow Glendale along with it and advertise the city, not only all over the United States, but throughout Canada, Europe, Asia, Africa and the islands of the sea, whereever a Knight of Pythias is to be found.

It sounds ambitious, but was perfectly plausible when explained by Chancellor Emil Fram at the regular meeting of the lodge Tuesday evening. He reminded members that Supreme Chancellor La Due is promoting a drive for a million members for the order before the convention in San Francisco in 1923. The lodge making the biggest gain during his term will be the banner lodge of the whole supreme command.

The chancellor followed this statement with the declaration that Glendale contains 1,000 men who have either been members of the Knights of Pythias in the past or are now members affiliated with lodges in other parts of the country.

He himself has been bringing home to these men their obligations to Glendale institutions. They have come here from every part of the country and settled in Glendale because they would rather live here than in any other part of the United States. They expect their children to live here after them. Why, therefore, should they not help in every possible way the institutions of their chosen home and advertise the fame of Glendale throughout Pythian knighthood? They see the point and are coming in.

Chancellor Fram has divided the lodge into two teams for this membership drive, placing Ed Melzer at the head of one and Cal Nicholson at the head of the other.

Great enthusiasm was inspired by this program and every member of the lodge will be rounded up and brought into the meetings and into the two teams, to work for the 1,000 members. It will be simply a Knights of Pythias revival and it ought to be easy.

Announcement was also made that on September 9 a William K. Harding Page class will be initiated into that rank at Tournament Park, Pasadena. It is expected that at least 600 Pages will take initiatory work at that time and that Glendale would furnish a large quota for that class.

At the close of the meeting the Sisters of La Halla Temple surprised the lodge by serving refreshments.

MRS. MUSIC IS HEARTY AT 85 YEARS

In her 85th year—yet with sight, hearing and health almost normal—Mrs. Iantha Music is enjoying life's late sunset in peace and happiness.

Born in January, 1837, near Glasgow, Missouri, Iantha Watson grew to the age of 13 on the old farm. Her father, Thomas Watson, who not only farmed but kept a small store in Keats, a little town not far from Glasgow, died when she was quite small and her mother later married James Porterfield.

Pioneers of Northwest

In 1850 the three, stepfather, mother, and child, joined a company of hardy pioneers bond for the far northwest. There were 70 wagons in the outfit, drawn by horses and ox teams, and several hundred people. The men all had rifles and knew how to use them. The start was made on April 3, and a well-defined trail through Nebraska and the eastern part of Wyoming, as they are now known, but had much trouble with high water. There were no bridges over any of the streams and often the wagon beds, which were so constructed as to be water tight, were taken off the running gears and made into boats. Indians were encountered frequently, but feared to attack the strong company of riflemen. Across western Wyoming and the now state of Idaho obscure mountain trails had to be sought out and many hardships were encountered. Before this the company had broken up into several groups, owing to the scarcity of grass for the horses and oxen. It was early in October, after six months of wandering, that the little group of which Iantha and her parents were members came to The Dalles, Oregon, where they were ferried across the Columbia river. They proceeded 12 miles down the stream to the mouth of the Sandy, which was a rendezvous for emigrants. Here they were met by friends and guided to Dallas, a little town, near where they settled on a farm.

Married Presbyterian Minister

At Dallas in 1853, Iantha Watson married B. F. Music, a Cumberland Presbyterian minister. They lived in the same neighborhood until 1865 and seven of their nine children were born there. In the year named they moved to Visalia, California, but stayed there only a year; for, though the surroundings were beautiful there was much malaria in the air, and none of the family were well, so they moved over near San Luis Obispo, where they lived for 20 years. Their other two children were born there. All of the nine children grew to maturity and married. Five of them are yet living, a son in Burbank, another in Visalia, and the third, B. P., with whom she makes her home, at 656 WestWest Broadway, Glendale. One daughter lives here and the other in Washington state.

Comes to Glendale

Five years ago B. P. Music, then living in Los Angeles, brought his mother home to spend the remainder of her days with him and his family. A year and a half ago they moved out to Glendale. B. P. owns the beautiful Canfield place on Verdugo Canyon road and may move out there later. His mother is in good health, can read without glasses and her hearing seems to be perfect. She may yet round out a century of useful living.

MISS CRAMPTON GIVES FAREWELL DINNER

Merriment ran riot on Wednesday evening in the home of Miss Grace Crampton, 325 West Burchett street, when she gave an elaborate farewell dinner party in honor of her house guest, Miss Faye Gould, who is leaving for her home in Independence, Mo., on Monday next.

The whole decorative scheme carried out the idea of travel and the fun started immediately upon the arrival of the guests, when each one was presented with a train ticket and baggage check on the "Frolic Town, Funville & Featherbrain Railway." the dining room they found that the the dinign room they found that the long dining table represented a miniature railroad system streteched from Los Angeles at one end, where sat the hostess, to Independence, Mo., at the other end, where Miss Gould was placed. Land, water, grass and trees were faithfully portrayed. The train was on the tracks, headed for Independence, and the semaphore down, denoting its early arrival there.

The guests found their sections by numbers, and claimed their baggage, which proved to be tiny suitcases filled with bonbons and nuts. The railroad tickets entitled them to all privileges of the trip and included meals and entertainment.

After dinner, according to the tickets, certain points of interest were supposedly visited, including Literary Light, Museum of Masterpieces of Literature, C Sharp Flats, Fashion Revue and Hilarity Hall.

Literary Light was interpreted by Miss Gould, who gave two charming readings. Museum of Masterpieces of Literature consisted of travel letters which were written for Miss Gould by each guest present. C Sharp Flats proved to be two beautiful songs sung by Miss Mildred Mather. Fashion Revue provoked gales of laughter as each young man, after drawing slips for partners, was given six sheets of newspaper and two rolls of pins and told to dress the young lady in the most becoming gown he could evolve. The result was better imagined than described, when the girls passed before the judges. George Peddicord won first honors.

Hilarity Hall brought to a close the delightful evening, with general fun, singing, piano numbers, etc., and good wishes for Miss Gould on her journey.

The guest list included Misses Mildred Mather, Gertrude and Mary Heidelman, of Los Angeles; Miss Eileen Sullivan, the hostess, Miss Grace Crampton, and the honoree, Miss Faye Gould, of Independence, Mo.; Messrs. Mortimer Kline, Wayne Jordan, Fred Collinger, of Los Angeles; Robert Sullivan, of Glendale; Francis Gordon, of Hollywood and George Peddicord of Pasadena.

GRAND VIEW WATER PLANT PURCHASE IS UNDER WAY

The city would owe E. H. Learned only $516.73 balance of the tentative purchase on the water distribution system in the Grand View district, should it purchase the plant, on the terms arranged, the city manager reported last night to the city council.

"When the matter of annexation of the Grand View district to the city of Glendale was first discussed some three years ago," said the city manager, "the question of taking over by the city the distributing system that was then furnishing a portion of that district with water and providing for the extension of city water service to the entire district was one of the principal objects sought by annexation.

"An inventory at that time was taken of the Learned property and the valuation placed thereon was $1,250 (inventory is herewith submitted). This was the price informally agreed upon at which the city would purchase this system in the eevnt of annexation of the district to the city of Glendale. Additions have been made to this system mostly consisting of service connections since 1917, bringing the total investment including original inventory to $1,683.69. Deducting 5 per cent for depreciation on additions and betterments leaves the net value of the system, this date, $1,[illegible]39.94.

"Now that this territory is officially a part of the city of Glendale and the people having voted bonds sufficient to provide a distributing system covering the entire district as agreed, the matter of purchasing the Learned system and making it a part of the city's distributing system in that district should be given consideration. There is an appropriation in the water department budget for this year of $3,000 for water mains and minor extensions to the system out of which an appropriation might be made covering the cost of this system.

"Mr. Learned has been furnished water during these several years at city rates for which he now owes the city $689.52. He owes for the installation of meters and services by the city, $433.69, making a total of $1,[illegible]23.21. The amount required to balance accounts between Mr. Learned and the city in the event the distributing sytsem is purchased as set forth above would be $516.73."

A COURTEOUS REPLY

VICKSBURG, Miss., Aug. 26.—The optimistic agent of the Illinois Central railroad here waxes as poetic as his claimants.

The claimant's hog wandered into the path of a speeding passenger train, his life was snuffed out, and the hog-riser sent in the following poetic claim:

"A razorback strolled down your track
A week ago today.
Your 29 came down the line
And snuffed his life away.
You can't blame me; the hog, you see
Slipped through a cattle gate.
So kindly pen a check for ten
The debt to liquidate."

The claim agent laconically observed that the train, perhaps, was not to blame. In rhyme he replied as follows:

"Old 29 came down the line
And killed your hog, we know;
But razorbacks on railroad tracks
Quite often meet with woe.
Therefore, my friend, we cannot send
The check for which you pine.
But plant the dead—place o'er his head:
"Here lies a foolish swine."

BUSINESS BLOCK COMPLETED

H. H. Parker, who has his large business and apartment block at Doran street and Columbus avenue nearly finished, yesterday put in an application for the installation of 13 electric light meters, four for store rooms, downstairs, one for his family apartment on the same floor and eight for the upstairs apartments. His own grocery stock has been moved into the store-room farthest west.

Chinese locomotive engineers have the gentlest sense of touch with the airbrake of any in the world. A break in two is almost unheard of, and there is very little damage to cars in Shunting on Chinese railways.

To date the National Forest Reservation Commission has approved for purchase 1,751,115 acres for national forest purposes in the mountain areas of the Eastern national forests.

LARGE SUM WILL BE SPENT ON CIVIC IMPROVEMENTS

Four thousand dollars of $226,000 city improvement bonds remain unsold the city manager reported last night to the City Council. The entire amount sold, $256,000, is available for the proposed improvements, as set forth in the pamphlet issued by the Board of Trustees, September 4, 1919. The amounts to be expended to the various units were reported by the city manager as follows:

Second pumping unit installed at main pumping plant at the intersection of San Fernando road and Grand View avenue, consisting of two well pumps and booster pump, $32,009.41.

Sixteen-inch trunk line extending from San Fernando road pumping plant along Grand View avenue and Tenth street, $29,339.75.

Trunk line extending along Vine avenue, including Vine avenue reservoir and pumps, to Grand View reservoir, $34,455.73.

Verdugo road reservoir, including pipe line and weir connecting with Verdugo Canyon Water Company's distributing system, $81,569.50.

Thirty-inch trunk line extending from Doran street along Glendale avenue and Verdugo road to Verdugo road reservoir, $46,870.41.

Six-inch distribution main laid on Sycamore Canyon road from Broadway to Windsor road, $13,385.77.

Six-inch distribution main on East Broadway from Verdugo road to icty limits, $1,947.53.

Engineering on account of proposed Verdugo Canyon water development works, $163.15.

Engineering on account of estimate and plan for pipe laying on Mariposa street, $104.20.

Water stock and miscellaneous expenses, including cost of bond election, $1,492.73.

Total cost of the above improvements to date, $241.329.18, leaving a balance of $13,101.47. There are a number of minor items yet to be taken care of in connection with the several improvements mentioned above that will no doubt reduce this sum several hundred dollars.

The improvements that were included in the original plan and estimate that could not be installed with the funds available on account of increased costs, were: Twenty-inch pressure main extending from Verdugo road reservoir along Verduo road and Canada boulevard to north line of tract No. 250; the original estimate of the cost of this main was $34,800. Wells, pumps and small reservoir to be located in Verdugo Canyon, original estimate of the cost of these improvements being $32,000. Electric generating plant that was to be located at the Verdugo road reservoir, estimated cost of which was $9,700.

It was also planned to spend $34,250 of this bond issue for additions and betterments to the water system, of which $15,333,30 was to be spent for the distribution mains laid on Sycamore Canyon road and East Broadway, as set forth above.

There will probably be about $10,000 of this bond issue available after the completion of the works now under construction. As this sum would not be sufficient to complete the Verdugo Canyon works, it might be well to consider using it for additions and betterments to the water system. If such a plan be adopted, it would afford a solution for a problem that will immediately confront your Council as soon as the new reservoirs are put into service, thereby adding 25 pounds additional to the pressure to the water system. This will no doubt result in some of the older pipes giving way. To meet this situation a considerable quantity of pipe should be on hand at that time. Therefore, it might be well to consider using this $10,000, or a considerable portion thereof, for the immediate purchase of four-inch cast-iron pipe and fittings, to replace any service mains that may give way when the additional pressure is added. The danger of the pipes of six inches in diameter and over giving way on account of additional pressure is not nearly so great, as these pipes were, in most instances, laid at a later date that were the smaller ones.

Museums of War Inventions

The French Government has decided to establish a museum of war inventions which were brought to the front during the great war and which were instrumental in winning the decision for the Allies. It is said that this institution will be of great value to the students in the various military and naval institutions.

ANCIENT MOON FESTIVAL OF TUJUNGANS REVIVED

Among the green Verdugo Hills, famed alike through their own beauty and by the writings of John Steven McGroarty, founder of the Millionaires Club of Happiness and Contentment, great things are going on.

A Moon Festival of the Tujungans, the first given since the ancient tribes of Tujunga held forth in the Monte Vista Valley, is being prepared for the folk of the many roaring and humming towns in Southern California. It is to be held from September 2 to September 6, taking in Labor Day, in order that as many of the townspeople as possible may have the opportunity of attending.

As with everything done by the good people of the Verdugos, the Moon Festival is given with a worthy end in view. Monte Vista Post, American Legion, although one of the smallest posts in the country, is one of the first to purchase its own home. It is to help the post finish paving for the hall that the proceeds of the festival are to go.

It has long been known that the Tujungans were a genenerous people, not alone in the ideal things of life, but in the more material as well. To bear this out, many free attractions are being offered during the days of the festival, including music, dancing and dramatic features; free parking and camping space; a community sing every night around the big campfire, and, perhaps most important of all, free admittance to the daily sessions of the Millionaires' Club of Happiness and Contentment. As everyone who has read Mr. McGroarty's writings knows, this club is composed of all the neighbors of the sunny slopes, including the man who plays the flute, the man who reads the papers, the man who has the phonograph and many others. The Bank of Joy will open for business and drafts will be issued to all visitors who may desire to join the Millionaires' Club.

Those who have been denied the opportunity of visiting among the oak groves of the valley, especially at night, when the starlight lends an added enchantment to the age-old trees, have a rare treat in store. To add to the natural beauties, electric lights have been strung among the branches and grouped around the bases of the trees in such a way as to make the grave a veritable fairyland. It is here that the Garden of the Moon will offer its attractions, consisting principally of refreshments.

Added to the entertainment which the neighbors themselves will furnish, will be acts presented by outside entertainers and carnival features which are so much enjoyed by everyone. A new dance platform, containing 4500 square feet, has been built among the trees, on which dances will be held nightly.

It would, of course, be impossible to tell of all the hundreds of delightful surprises which the Tujungans have in store for their guests. It is sufficient to say that no one, no matter what his taste, can possibly go home disappointed. Following is the proposed program:

Friday, September 2—Opening day and Club Women's day. At 2 p. m., opening ceremonies, including brief addresses, presentation of a flag by the Woman's Club to Monte Vista Post and raising the flag at the club house grounds. Reception to visiting members of woman's clubs.

8 p. m.—Grand opening ball at the dance pavilion.

Saturday—Picnic day. Special attention will be given by local committees to the locating of visitors who come for week-end picnics or to camp during the entire festival. Free camping grounds with free water will be provided.

The Millionaires' Club of Happiness and Contentment will keep open house.

Saturday will be Fraternal day, and local Masons, Elks and others will be prepared to welcome visitors of the different orders.

A parade of the Tujungans will precede the free entertainment features of the evening.

Sunday—American Legion day. Reception of Legion officers at Bolton Hall at 2 p. m. Metaphysical meeting on the site of the Higher Thought College at 2.45. At 3:45, concert at the pavilion under the direction of Miss Bessie Chapin, assisted by the Glendale Legion band.

The baseball managers of Southern California will hold their annual convention at Tujunga on this day.

Monday—Labor Day. The program for this day is incomplete but it will be devoted mainly to Labor Day festivities.

Tuesday—Field Day. There will be a hill-climbing contest for Ford cars, and members of different gymnasiums and athletic clubs of Los Angeles and neighboring towns will stage field day contests. The final vote in the Festival Queen contest will be announced, prizes will be awarded and the winner will be crowned queen of the festival. The day's program will end with a grand carnival dance.

Excellent transportation facilities have been arranged, and it is believed that no difficulty will be experienced in handling the immense crowds that are expected to attend the festival. To those having autos, it is but a few minutes' drive north over to Verdugo road to the Stae highway and then west to Tujunga. The Glendale Montrose Railway will connect with stages from Tujunga on its regular schedule, and those wishing to use this method of transportation are assured of excellent accommodations.

Camping grounds are being prepared, and those who wish to take a week-end outing could find no more delightful place than out under the stars in the green Verdugo Hills.

FACTS ABOUT THE MOON FESTIVAL OF TUJUNGA

Where—Tujunga, in the Green Verdugo Hills.
When—September 2 to September 6.
Why—For the benefit of Monte Vista Post No. 250, American Legion.
What—Entertainment for everyone.
How to Get There—Go north on Verdugo road to State highway then west to Tujunga.

Sand Man Stories

Chapter 2

BUNNY RABBIT GOES HIKING

Bunny Rabbit was badly frightened when he came across the creature with many legs and horns on each side of its head; indeed, so badly frightened that he entirely forgot in which direction he had come after leaving his home.

Just then he heard a noise—plump, plump, plump—and the little girl who had been feeding his mother each day came down the walk, stopped and called to some one to come and look at the Potato Bug.

Bunny was relieved to hear this but what was a Potato Bug doing in a Cabbage Patch.

He crouched low to keep from being seen. The little girl picked up the bug and pretty nearly touched Bunny in doing it, but Bunny held his breath and escaped being seen.

Now to find the good things to eat. First, he ate some of the cabbage leaf which had given him shelter and then walked around, taking a bite here and there of the many goodies. My! what a fine time he was having! After a while he was so full he could not eat any more and he was so sleepy he could hardly walk. He wanted to sleep and he surely missed his nice warm, fur-lined bed.

In looking around he saw an old lumber pile which might have a hiding place, so he scampered over to it and found a fairly good place, and in a short time was asleep.

He must have slept for a long time for when he opened his eyes the sunlight had left, and while he could see, it was kind of dark. There was many noises in the lumber pile. Right close to him he saw something which looked like a rabbit, but it had a long tail and a pointed nose. This animal crept around as if it were scared at something, this frightened Bunny, because he wondered what it was, and maybe that something might harm him. He had enjoyed himself all right and had many good things to eat, but my! how he wished he was home, where his mother could take care of him.

(To be continued)

WOMEN ORGANIZE FOR VALLEY FAIR

The picnic which Mrs. Ella Richardson had planned to hold next Tuesday in Verdugo Woodlands for the members of the various Glendale committees who are working to promote the San Fernando Valley Fair, has been postponed because it will be impossible for some of the committee women to attend at that time.

Today Mrs. Richardson is the guest of Mrs. Ella Huston of San Fernando, who is entertaining all the general committee chairmen for a conference on problems connected with the exhibition. Next week Wednesday, all the committees are requested to meet at Van Nuys, in the Women's Club house, to discuss plans and methods.

Miss Eva Daniels, who is chairman of Needlework for Glendale, says she has secured the promise of a number of fine exhibits, including a wonderful crocheted bedspread, table runners, fillet squares, etc.

She has a number of exhibitors' application blanks at her home, 324 West Colorado street, which she will be glad to give to applicants. They can also be had from the Chamber of Commerce offices, on West Broadway.

WATER MAIN BOND FUND ESTIMATES ARE SUBMITTED

The matter of the distribution mains to be laid from the proceeds of the $100,000 bond issue authorized for that purpose at an election held on March 29 last, was brought forward by the city manager at the meeting of the city council last night. Estimates of the cost of the installation of the distributing mains in accordance with the plans set forth for these improvements during the bond election campaign ere submitted for the consideration of the council.

He reported as follows:

16-inch main on Monterey road from Glendale avenue to Adams street—length 430 lineal feet; estimated cost $1,344.48.

12-inch main on Monterey road from Adams street to Verdugo road and on Verdugo road from Monterey road to Wilson avenue—length 3500 lineal feet; estimated cost $9,557.87.

12-inch main on Broadway from Glendale avenue to Brand boulevard—length 2352 lineal feet; estimated cost $11,805.47.

8-inch main on Colorado street from Brand boulevard to Louise street—length 720 lineal feet; estimated cost $2,005.75.

8-inch main on Brand boulevard from Colorado street to San Fernando road—length 6816 lineal feet; estimated cost $21,172.68.

8-inch main on Glendale avenue from Windsor road to Cypress street—length 2616 lineal feet; estimated cost $6,695.04.

6-inch main on Acacia street from Glendale avenue to Boynton street—length 828 lineal feet; etsimated cost $1,741.08.

6-inch main on Palmer avenue from Glendale avenue to Mariposa street—length 612 lineal feet; estimated cost $1,245.46.

6-inch main on Windsor road from Sycamore Canyon road to Verdugo road—length 2244 lineal feet; estimated cost $3,693.62.

8-inch main on San Fernando road from Magnolia avenue to Pacific avenue and on Pacific avenue from San Fernando road to Riverdale drive—length 3084 lineal feet; estimated cost $7,930.72.

6-inch main on West Broadway from San Fernando road to Pacific avenue—length 2196 lineal feet; estimated cost $3,506.96.

8-inch main on Pacific avenue from Broaday to Stocker street—length 6360 lineal feet; estimated cost $16,658.24.

8-inch main on Chester street from Doran street to California avenue—length 1548 lineal feet; estimated cost $3,512.87.

6-inch main on Dryden street from Brand boulevard to Campbell street—length 1392 lineal feet; estimated cost $3,064.48.

This includes a total length of mains to be laid of 34,698 feet, the total estimated cost of which is $93,934.72.

A great deal of careful consideration has been given to the placing of these mains and to determining the size thereof and I believe that they have been placed at locations where additional distribution mains are of greatest need at the present time. The location of these mains as proposed is set forth in heavy red lines on map submitted herewith.

"In order to study the relation of these new mains as proposed to the system reference should be made to the large map setting forth the various sizes of water mains that constitute the entire system," said city manager. "On that map the single dotted block lines set forth the plan and location of distribution mains proposed to be laid from the proceeds of the $100,000 bond issue as discussed during the campaign of March 29. The plans as now proposed follows the plan discussed at that time closely with a few minor changes and additions.

"If the policy of charging the abutting property that will be served by these distribution mains as service mains, the proportionate cost of the installation of four inch cast iron service main for such property on the basis of 30c per lineal foot approximately $10,000 of the above total cost would be returned to the fund, which amount would be available for additional distribution mains."

BICYCLE RACE MEET

A bicycle race meet will be held in Glendale September 5. At the meeting of the City Council last night, it granted a permit to hold this series of races to William A. Pfeifer, who conducted a similar series last year.

These races will start on Broadway at Verdugo road and the course will continue eastward toward Eagle Rock. A number of prizes will be offered to the youngsters who make the best time in the various events.

The new casein glue made by the United States Forest Products Laboratory is so strong that when ply weed is made with it this withstands after boiling for eight hours a shearing strain of 180 pounds to the square inch.

SEE "THE KISS" AT GLENDALE THEATRE

Carmel Myers will be at the Glendale Theatre tonight in the most romantic story of her successful screen career. It is called "The Kiss," and was filmed in the most picturesque spots in Southern California from the story by Johnston McCulley, originally called "Little Erolinda."

Under drowsing pepper trees that encircle a magnificent old hacienda, a girl dreams of Audre Baldarama, son of the feudal don who rules Southern California in the golden age of love and battle. How she lifts herself from the low station to which she had been born and becomes the loved one of the gallant young aristocrat, is a point in th story reached only after a series of the most startling adventure.

Jack Conway, noted as a leading man and a director, produced "The Kiss," using the actual locale of the original story, sun-splashed Southern California where the original haciendas of the old dons are still crumbling to an honorable decay, their dust sanctified in the glorious history of the republic.

The second feminine role is played by vivacious Pean Acker, while Ira Brady and J. J. Lanoe are seen in clever characterizations.

LIVE COLE CLASS ENJOY PICNIC

Mr. and Mrs. Harry Marple, 202 West Palmer avenue, and the other members of the Live Cole class of the Central Christian Church, will journey by truck to the Arroyo Seco tonight where they will enjoy a picnic supper. Mr. and Mrs. Marple will then hike on to Switzer's camp where they will remain for the week-end. Their children, little Miss Betty and Master Harry, Jr., will be the week-end guests of their grandmother, Mrs. F. B. Crouch, 517 North Maryland avenue, during the absence of their parents.

BOARD OF EDUCATION TAKES UP MATTERS OF INTEREST

The question of transportation for Grand View pupils to the Central Avenue School was thoroughly discussed at the meeting of the Glendale Board of Education held at the Intermediate School last evening and a policy was agreed upon subject to the approval of County Superintendent Keppel, who will be consulted in regard to the matter today by Superintendent Richardson D. White. He will also confer further with O. H. Smith, general passenger agent of the Pacific Electric.

W. D. Learned, representing the Grand Vie wdistrict, was present and joined in the informal discussion.

Mr. White reported that the charge made by the Pacific Electric road for 46-ride tickets from the point where the children wolud take the car to Central avenue was $2.30. The single round trip fare is ten cents. The board decided to assume carfare expenses only for children below the 7th grade because the distance from Gran View to the Central Avenue School is not great enough to work a serious hardship on older children if they walk. The board deemed it a fair proposition to pay a part of the carfare and after conferring with the county superintendent, Mr. White, will visit the parents of Grand View pupils, explain the matter to them and arrange fith them about transportation of the younger children.

Bids for furnishing the two first floor class rooms that have just been completed in the Central Avenue school were opened. The board decided to furnish but one of the rooms nom, deferring other purchases until after school opens and additional needs are determined.

The Webber Company secure the order for the teacher's desk and chair, the order for children's seats and desk going to the Jones Book Store Company, these two concerns having submitted the lowest bids.

Another visitor present who addressed the board was R. W. Meeker who spoke on behalf of himself and E. O. Fitz, concerning a subdivision which is being platted. He submitted a proposition to include in this subdivision the Eighth street school site which has neevr been improved, and give in exchange for it other land.

KIDDIES ENJOY "SCRAP IRON"

Anyone passing the Palace Grand Theatre yesterday at 1 o'clock was halted, either out of curiosity or because of the detour it was necessary to make to get by the crowd of youngsters who were fighting their way to the front to see the big double feature attraction that was offered free of charge to the youth of Glendale. Did they turn out? They came early and stayed late. The line began to form an hour and a half before the opening and continued until the capacity of the theatre was taxed to its limit.

Charles Ray, as usual, proved his worth in entertaining his many followers in his lates success, "Scrap Iron."

The first episode of the wonder animal picture, "Miracles of the Jungle," which is so different from the usual serial, started off with a grand concert of youthful critics, and is destined to prove an interesting picture to follow.

Both of these will be shown again today, together with a lively comedy and cartoon.

BUILDING PERMITS

The total of $400,000 in building permits for August was almost reached at noon today, the actual figures being $398, 145. For this year, the total is $2,718,069. Those issued up to noon today were as follows:

Sylvester Buckner, five rooms, 221 East Acacia	$ 2500
M. M. Snell, four-room addition, 116 East Eulalia	650
G. L. Reed, three rooms, 432 Piedmont Park	1200
William Cornelius, garage, 312 East Lomita	200
Nettie Hoffman, six rooms, 300 East California	4000
L. C. Olivas, four rooms, 707 East Lomita	650
James M. Murrican, four rooms, 1236 Fourth street	1500
James W. Cooper, five rooms and garage, 1020 East Lexington drive	3000

The great need of the season is an oil, or gas, or electric stove that will get hot enough to cook the food without getting hot enough to wilt the cook.

WHAT YOUR NEIGHBORS ARE DOING

Dr. A. M. Duncan left Glendale yesterday morning to spend a week at Catalina.

* * *

Mrs. P. L. Roberson, of the St. Helena Sanitarium, near San Francisco, is enjoying a tour of Southern California. While in the south she will enjoy a week's visit with her daughter, Miss Hazel Roberson, a graduate nurse at the Glendale Sanitarium.

* * *

If present plans are carried out, the members of the Christian Endeavor society of the Tropico Presbyterian church will go to Burbank for a union meeting with the society of the Burbank Presbyterian church on Sunday afternoon. Fifteen to thirty will go from here.

* * *

C. M. Anderson has leased his home at 614 East California avenue and will room at 1269 South San Fernando road, when he is able to leave the hospital. Mr. Anderson is employed by the city and had his foot badly crushed a short time ago when it was run over by a truck.

* * *

R. J. Long, a lineman employed by the public service department of Glendale, returned this week from a visit of three weeks in the region of Lake Tahoe.

* * *

A 50 K. W. H. transformer will soon be hung behind the business houses on the west side of Brand boulevard, south of Broadway. Through this transformer, the western section of the city will receive its electricity.

* * *

Mr. and Mrs. George G. Neil and daughter Alice, of 360 West Colorado street, and Mr. and Mrs. R. E. Downing of Hawthorne street, have just returned from a pleasant at Catalina.

* * *

Mr. and Mrs. W. D. Byram left this morning for their home in San Francosco, after spending a delightful ten days visiting Mr. Byram's mother, Mrs. E. P. Byram, 228 North Glendale avenue, and other relatives in Hollywood. They were very much pleased with the splendid growth of Glendale in the past two years.

* * *

Mrs. J. C. Bardsley, mother of Mrs. J. E. Rockhold of West Burchett, has been quite ill for some time and although somewhat improved, is still confined to her bed.

* * *

Misses Francis and Carolyn Rockhold, of Riverside, who have been the ghests of their brother and sister-in-law, Mr. and Mrs. J. E. Rockhold, 330 West Burchett street, have been visiting old friends, Mr. and Mrs. William Lewis of Hollywood. They will return to their home in Riverside on Sunday.

Miss Eleanor Sargent of 448 West California street entertained as her guests yesterday, Misses Velma and Bess Osler, of Los Angeles.

* * *

Mrs. Olga Mannigold, 509 North Kenwood street, entertained at dinner last evening, her son and daughter from Los Angeles, who are soon to start on a vacation trip to San Francisco and other northern points.

* * *

Dr. Caroline Paine Jackman, 515 North Kenfood street, is visiting an old and dear friend, Mrs. Myrtle Wilsin Stipps, in Pasadena today. Mrs. Stipps is a returned missionary from the Philippines.

* * *

Mr. and Mrs. J. H. Braly, 505 North Brand boulevard, accompanied by their house guest, Mrs. D. Elkins Lord of Ventura, attended the luncheon and meeting of the Men's City Club in Los Angeles Wednesday. The principal address was given by a returned missionary from China upon the Chinese famine. This club has so increased in membership that it is now second only to the City Club of Boston, which is the largest in the United States. Plans are now being made for a new club building.

* * *

Mr. and Mrs. Ed Lynch, who have returned to Glendale and have been occupying the home of Mr. and Mrs. H. B. Lynch at 404 West Colorado while they are absent on a vacation trip, are diligently looking for a house to rent, as they want to again make their home in Glendale. Mrs. Lynch says they are so scarce she may have to go to Los Angeles or Hollywood.

* * *

Mr. and Mrs. Ashley and Mr. and Mrs. Rogers plan to spend the Labor Day holidays at Glen Ranch in the San Bernardino Mountains.

* * *

E. W. Farnsworth of St. Helena is passing some time in Glendale as a delegate to the Pacific conference of the Seventh-Day Adventist church, which is being held in this city.

* * *

A. T. Hopman, purchasing agent of the Glendale Sanitarium, journeyed to Long Beach today and expects to enjoy a week's vacation there.

* * *

J. W. Christian and his family, of this city, went to Loma Linda today. Mr. Christian is president of the Pacific Union Conference of the Seventh Day Adventist church.

* * *

Rev. W. E. Edmonds, pastor of the First Presbyterian church, is away on his annual vacation. He will return to Glendale on September 15.

* * *

Mrs. Charles Shattuck, corner of Central and Riverdale, has gone to Coronado for a week.

Mrs. J. P. Stroud, who has been spending the summer with her daughter, Mrs. Mabel Rudy, 437 South Central avenue, is returning to Kansas City. She likes Glendale very much and is considering coming back and building a home here.

* * *

Mrs. John King of West Lomita has just returned from a week's stay in Catalina.

* * *

Mr. and Mrs. Charles H. Meadows, sister and brother-in-law of Mrs. Chas. A. Parker, who came to this city from Windsor, Ont., and bought a home, are now settled at 721 North Brand. Mrs. Parker is attracting quite a colony of relatives to Glendale.

* * *

Miss Bertha Tinning, 141 North Kenwood street, seriously injured the ligaments of her left foot a few days ago while boarding a car for Los Angeles. She is confined to the house but is recovering rapidly.

* * *

Mrs. A. H. Fuelscher of 237 South Orange street and daughters, Annie and Alice, spent yesterday at Long Beach as the guests of Mrs. Fuelcher's sister, Mrs. A. Maurer.

* * *

Dr. and Mrs. C. L. Marlenee will be guests of Mr. and Mrs. Ralph Welcome at a dancing party at one of the Los Angeles club houses this evening.

* * *

Rev. Louis Tinning, 141 North Kenwood street, assistant pastor of the First Presbyterian church, returned yesterday from his vacation, which was spent with friends in Long Beach.

* * *

Mr. and Mrs. W. P. Potter of 725 East Elk avenue, who are comparatively newcomers, having come down from Visalia in April, like Glendale very much and expect to make their permanent home here.

* * *

Joe Audet and wife are hankering for Glendale again. They were in the city today with their two boys, Bobby and Eldritch, looking for a house to rent. They have been away twice, the first time living in Daggett for a year or two, and the last time in Los Angeles, but the lure of beautiful Glendale proved too strong for them again. They formerly owned property at 435 Vine street.

* * *

Mr. and Mrs. J. W. Powell, 1280 South Mariposa street, have said goodby to their daughter and son-in-law, Mr. and Mrs. W. V. Jackson, who have been their house guests for the past three months, and the visitors have returned to their home in Alexandria, La. The Jacksons are delighted with Glendale and hope to return to make their home here before long.

* * *

N. P. Banks Post and Corps is having its regular monthly all-day meeting and dinner today at G. A. R. Hall. Mrs. Adelaide Chappius is chairman of the dinner committee.

* * *

Miss Lee Harrell, who has been the guest of Miss Helen Cobb at her home at 1118 South San Fernando road, has returned to Wheldon, Tex.

* * *

Mrs. C. N. Young and son, Robert, of Seventy-first and Compton streets, Los Angeles, were guests of Mrs. Young's parents, Mr. and Mrs. R. A. Ramey, 101 North Brand boulevard.

* * *

Mrs. S. F. Card, 319 Patterson avenue, entertained at luncheon yesterday Mrs. Richard Metzer and mother, Mrs. Armstrong, and Mrs. Fred Bolthoff, of Los Angeles. The party spent the afternoon in looking over home sites in Glendale with a view to purchasing. The Bolthoffs own a lot on Patterson and are planning the erection of a home thereon in the near future.

* * *

Mr. and Mrs. A. Michel and children, 807 North Central avenue, returned last evening from a 25-day auto trip to Lake Tahoe, San Francisco, Oakland and other points of interest.

* * *

The R. T. W. Class of the First Baptist church will hold its next meeting Tuesday afternoon at the home of Mrs. R. L. Kent, 522 North Central avenue.

* * *

Mr. and Mrs. C. S. Archer have sold their home at 607 East Elk avenue and are building again on a 75-foot lot just west of the home of their daughter, Mrs. Warren Roberts, at 616 East Elk avenue.

* * *

Mrs. C. N. Cram of 357 West California street, accompanied by Mrs. Cram's father, A. S. March, who has been her guest for the past four weeks, made a sight-seeing trip to Catalina Wednesday. Mr. March left for his home today, going by way of San Francisco, where he will visit for a short time with friends and relatives.

* * *

Mr. and Mrs. Dan Bruce, who have been occupying the Theo F. Peirce home at 317 Vine street, are building a home at 321 Vine street and will occupy it in about a month. Mr. and Mrs. Bruce are vaudeville artists but are now taking an extended lay-off from the stage. Mr. Bruce is in business in Glendale at the present time and there is a chance that he and Mrs. Bruce will make Glendale their permanent home. Mrs. Bruce is the daughter of George Duffett, 321 Vine

* * *

Mr. and Mrs. Theo F. Peirce, who have been passing several morths at Manhattan Beach, are expected home about September 10, when they will take possession of their home at 317 Vine street.

* * *

Councilman A. H. Lapham, accompanied by his neighbors, Albert Clark and Albert Read, will motor to Little Rock in the Antelope Valley to see the last of the pear picking on Mr. Lapham's ranch.

* * *

Mrs. Edith McKeever of 635 North Orange street, has gone to Los Angeles to live and S. C. Kinc hand his daughter, Miss Franc Kinch, now occupy the house.

* * *

Mrs. Alice Farrish and sister have leased the property at 639 North Orange street and plan to spend the winter in Glendale. Mrs. Farrish is widely known in musical circles of Los Angeles and San Diego.

* * *

An evangelistic effort is being made at Burbank in aid of the newly established Seventh-Day Adventist church, by Elder Chester S. Prout, who is conducting meetings on the corners of Fourth and Olive streets. Mrs. C. F. Swartsfager, organist of the Seventh-Day Adventist church in Glendale, has charge of the music in connection with the meetings. The topic tonight will be: "The Secret and Success of Happiness." Many Glendalians are attending.

McRAE'S HOME FROM BEACH

Mrs. D. B. McRae, 822 East Wilson avenue, with children and grandchildren, making a party of nine, has just returned from a month's outing at Redondo Beach. In the group besides Mrs. McRae, were: Mrs. Castle and two sons from St. Louis, Mary, John and Elizabeth Simpson, Miss Catherine McRae and Miss Elsie Koehler.

Mrs. McRae reports a very good time and all members of the party much benefitted by the change. In their absence the home was occupied by the bride and groom, Mr. and Mrs. Donald A. McRae, who are building a home not far away in Dayton Court, which they expect will be ready for occupancy in three or four weeks.

GLENDALE (LOS ANGELES POSTOFFICE), CALIFORNIA, FRIDAY, AUGUST 26, 1921

SURVEY OF GLENDALE CONDITIONS

By TOM WATSON, Former City Manager

Report to the City Council on Closing His Administration of the Past Eight Years

An exhaustive review of the affairs of the city, at the close of his administration, was made last night in a communication to the City Council by Tom Watson, for eight years manager of the city.

In the review Mr. Watson laid before the city executives all the problems with which he has had to contend, which now are the problems of his successor, City Manager W. H. Reeves.

The review in full follows:

Before retiring from the office of city manager, on the 31st instant, I deem it expedient that I submit to your Council a summary of the major projects that are now engaging the attention of the city, with the thought that such a summary will be of some assistance to you and the incoming city manager, in that it will call attention in a comprehensive way to the most important matters that will no doubt engage your attention during the immediate future.

Health and Sanitation

1.

Sewer System for a Portion of Business District

Plans and specifications have been prepared and legal preceedings are awaiting the securing of certain casements over private property, all of which I understand have been secured but one. In connection witht this project, the following might well be borne in mind:

(a) No connection should be permitted to be made to this system to serve property not included in the district assessed to cover the cost thereof.

(b) Ordinance should be provided requiring the installation of grease traps at all connections where large amounts of grease are liable to accumulate, such as restaurants, hotels, etc. Would suggest that such ordinance provide for regular inspection of all grease traps required thereby and that a small fee or license be charged to cover cost of inspection.

(c) Disposal until No. 1 will be provided with observation manholes for the septic tank and each cesspool. Mr. R. F. Goudy, Assistant Engineer of the State Board of Health, has suggested that observations should be made to determine the results obtained in the purification of the sewage in this unit and all data gathered that would be of use in determining the effectiveness of the unit.

(d) As the district grows and the volume of sewage to be handled increases, additional disposal units will be necessary. This might be provided for in the annual budget. At least one additional disposal unit should be provided for in next year's budget.

2.

Sewage Disposal System for Verdugo Canyon District

$50,000.00 of bonds of Municipal Improvement District No. 3 have been authorized by the voters of that district to provide trunk line sewer extending the entire length of the canyon, reaching present location of city reservoirs on Glendale avenue. After the abandoment of these reservoirs by the Water Department this location might well be used as a temporary location for a sewage disposal plant to serve this district. The people of the district understand that $10,000.00 of this bond issue is to be used for a sewage disposal plant and that redemption and interest thereon is to be paid for from the general revenues of the city. This affords an opportunity to develop a disposal unit of the most modern design by means of which the solids of this district may be converted into commercial fertilizer and the liquid clarified and purified to the extent that it will be practicable to use it for irrigation purposes or to sterilize it by clarination and dispose of it as ordinary storm water and thus point the way to a solution of the sewer problem for the entire city.

The activated sludge process should be investigated thoroughly in this connection. Ralph Hilscher, Director of the State Board of Health, has designed too small activated sludge plants in the state that are working successfully. Mr. Hilscher will assist the City of Glendale in every way possible in this matter as will also his assistant, Mr. Goudy, whose offices are located in Los Angeles.

Proposed contract with Olmsted Gillelen, Sanitary Engineers, to draw plans for this disposal plant has been prepared and referred to Committee of the Whole.

3.

In Regard to the Laying of Laterals In Verdugo Canyon District

Consideration should be given immediately to the laying of laterals in the streets extending east and west of Canada boulevard in the Verdugo Doodlands district. These laterals to carry the sewage from residences in that portion of the canyon to the trunk line. This matter should proceed so that the installation of the laterals could be completed about the same time that the trunk line is installed. The protection of the city's water supply and the immediate development of the canyon requires that the main trunk line, the laterals and the disposal works, be installed and in operation without delay.

4.

In Regard to Plans for a General Sewage Disposal:

The commission, consisting of twelve members and the City Manager appointed to work with Olmstead and Gillelen, in deciding on a plan for general sewage disposal for the entire city, and to report with their recommendations to the Council within one year's time from the date of their appointment, which was on the 3rd of February, 1921, has held a number of meetings and has made considerable investigation. The commission has held no meetings lately. It is understood that they are awaitin the submission of a plan or plans by the engineers.

5.

In Regard to Gathering and Disposal Of City Garbage

Contract with Mr. Oradorff, whereby he purchases city garbage will expire February 13, 1922. This matter should have early consideration so that arrangements for the disposal of the city garbage might be well advanced before the expiration of this contract.

6.

In Regard to Disposal of Waste And Papers

Some better means of disposing of waste papers that cannot be bailed and sold as per contract with the Paraffine Companies, Inc., Economy Paper Plant, should be provided, possibly a small incinerator might be constructed at the location suggested for the sewag disposal works. The City Engineer has prepared diagram and estimate of cost of small incinerator, adapted for this purpose.

7.

General Statement in Regard to Water and Electrical Business

The electrical business. This business is on a splendid financial basis as set forth in our report of July 28th. The revenues of this business, are now and will no doubt continue to be sufficient to take care of operating expenses together with replacements, betterments and extensions to the system. Heretofore, a considerable portion of these revenues have been used for betterments and extensions to the water business. In order to do this, the reserve for depreciation on the electrical equipment and distribution system was used largely in support of the water business. This policy should now be discontinued, as some of the original installations of the electrical system will require replacement within the next three years, and depreciation funds of electrical business should be reserved for that purpose. The entire revenues of the electrical business will be needed from now on to take care of the needs of that department.

The Water Business. The financing of the water business is a much more difficult problem that that of the electrical business, inasmuch as over twice as much money per consumer served, is required for plant investment. On this account, a portion of the investment of the consumer served, that is, by payment of service connections. A portion of the investment should also be supplied by assessment or tax on property served. This is the only basis upon which reasonable water rates can be maintained. This is the basis upon which the budget for this year, is made up. The revenues of the water business last year, were not sufficient to take care of all minor extensions and betterments to the system, notwithstanding the fact that no distribution or service mains were paid for from the revenues. There was devoted to the support of the water business from the revenues of the electrical business last year, the sum of $4,703.40. Since the organization of the water department there has been used from the revenues of the electrical business the sum of $72,546.70 in the support of the water business. As stated before, this cannot well continue and the water business will necessarily have to be financed on some other basis. All expenditures on account of the water business that cannot be taken care of in some manner by assessment on property or general tax. No water business in Southern California, that I know of, municipal or privately owned, is financed on the basis of the revenues of the business carrying the entire investment, that furnishes water at rates as low as the Glendale rates are.

8.

Grand View District

Plans have been prepared and adopted by your Council, for a distributing system in this district consisting of eight inch mains to be laid on all the principal streets extending east and west from Grand View avenue. Bids for the pipe and fittings for this system will be received September 1. The installation might well be done direct by the Public Service Department. The understanding is that property holders of that district will pay for the four inch cast iron laterals that will connect these mains on intersecting streets.

9.

Distribution Mains From $100,000.00 Issue

Plans for the installation of these mains have been prepared and submitted to your Council for consideration together with estimates of costs of the several installations and budget appropriations therefore. These plans are in accordance with outline given to people, during bond campaign as to proposed location of these mains. Prices of material have been reduced materially during the last few months, and it would seem advisable to proceed with the laying of these mains without delay, as certain sections of the city are in need of the water supply that will be provided thereby, especially the southeastern and northwestern sections. These bonds were authorized with the understanding that should Proposition No. 1 carry, that is, that the laying of four inch cost iron service mains be financed by bond issues, then $40,000.00 of this issue, would be devoted to the installation of service mains and that service mains would be laid to the extent of $40,000.00 upon streets, the property holders of which had petitioned for street improvement where such improvement necessitated replacement of present service mains or the installation of service mains where none exist at the present time, and if Proposition No. 2 carried that wherever the distribution mains to be laid from the proceeds of this bonds issue served also as service mains that the proportionate cost of a service main be assessed to the property served thereby. Proposition No. 2, having carried, it is presumed that the policy set forth thereby will be followed, in which event possibly 30 per cent of the cost of the distribution mains planned to be laid from the proceeds of this $100,000.00 bond issue will be returned from assessments on property, that will be served as service mains by these distribution mains. This will afford a considerable sum for the laying of additional distribution mains which will no doubt be needed in the near future or additional bonds authorized.

10.

Water Supply for North Glendale Section Recently Annexed to the City

This district will require additional distribution mains, some of which will be a continuation of the mains that are provided for in the Grand View installation extending east from Grand View avenue. That portion of this district north of Kenneth road and above the 660 foot contour, will require a distribution main, extending east from Grand View avenue, that will connect with the high level system, now served from the Brand reservoir. No plans as yet have been worked out for the financing of these instatllations. This is a matter that should be taken up at once, inasmuch as the principal object sought by annexation was the extension of the city's water service to this district. There are two plans available for this—the formation of a municipal improvement district, as was done in the Grand View section, and the authorization thereby of sufficient bonds to cover the cost of this installation or the installation of the system under the Voerman Act, which would involve an assessment against the property benefited. The former plan is practicable would no doubt be more acceptable to the district. Under the plans adopted for the Grand View district, and for the city in general, the property holders in this district would finance the cost of four inch distribution mains, also. Plans should be worked out as soon as possible for a water distribution system for this district, especially for that section that lies above the 660 foot contour, inasmuch as it will be impracticable to operate the distributing system of that section to best advantages until some means is provided whereby the higher level may be served independent of the section that lies below the 660 foot contour. At present a considerable portion of the water that is used on the lower level has to be raised to the Brand reservoir, which is 180 feet higher than the Grand View reservoir.

11.

Distributing System for Sierra Avenue Annexation District (A Portion of Sycamore Canyon Section)

The principal object sought by the property holders of this section by the annexation of this district to the City of Glendale, was the securing of a water supply. They are expecting that measures will be taken without delay to form a municipal improvement district by which the voters of the section may authorize sufficient bonds to install a water distribution system adequate to supply all the territory of the section that lies below the 900 foot contour. It will be practicable to serve this section with gravity water from the Verdugo Canyon, when the development works and pressure line proposed to be installed there, have been placed in service. Until that time however, a booster pump will be necessary in connection with this system to raise the water from the 720 foot elevation as is done by the small pump, lately installed at the Grand View reservoir. This should be considered as a permanent installation, however, as it will insure the district served thereby, a supply of water at any titme the Verdugo Canyon supply should prove inadequate to fully serve the entire foothill district by which we mean all the territory within the city limits that lies above the 660 foot contour.

12.

In Regard to Four Inch Cast Iron Distribution Mains, for the Replacement of Present Mains That Are Old and Worn Out, Also For New Extensions.

No provision has been made in the annual budget for financing these replacements of extensions. The revenues of the water business based on present rates will not produce funds for this purpose. It is presumed that the policy adopted by resolution of the Board of Trustees, in accordance with the decision of the voters at the election held March 29th, last, will be followed in this respect, that is that these extensions will be financed by assessment levied against property benefited thereby. It would greatly facilitate the carrying out of this plan, if an ordinance were adopted by your Council, providing a direct and simple procedure, whereby this work could be done by the city, eliminating in as far as possible, all overhead costs. A revolving fund should be provided to finance this work, while under construction.

This is one of the city's largest problems, from the standpoint of financing, and will involve a total expenditure from one-half to three-fourths million dollars to complete the system of distribution mains, for the entire city. This can be considered on the basis of a new project, as there are only a little over three miles of cast iron distribution mains laid at the present time. All the rest of the system of service mains now in operation, consists of pipes that are old and will have to be replaced shortly. This together with extensions in new districts involves a financial problem, unless it is handled along the lines of the policy adopted therefor. If the water rates in Glendale are to remain on the present comparitively low basis, and the policy continued of taking care of all bonds issued on account of the Water Department, from the revenues of the water business, it will be necessary that an investment in distribution mains of from $30.00 to $40.00 for each fifty foot lot be made directly the owners of all property served with water from the city's distribution system, both for replacement of old mains and the laying of new extesions.

13.

In Regard to Improvements to Water System Contemplated Under $260,000.00 Bond Issue as Set Forth in Pamphlet Issued by Board of Trustees, September 4, 1919.

These improvements are practically completed with exception of works that were to be constructed in Verdugo Canyon, consisting of a twenty inch pressure main extending from the Verdugo Road Reservoir north along Verdugo road and Canada boulevard, to the north line of Tract No. 250, about the center of the canyon, and the installation at that location of wells and pumps to raise the water from the subterranean streams, to the surface, also small reservoir at that location. These works could not be constructed owing to advances in the cost of materials and installation, after the original estimates were made. A statement is attached hereto, of expenditures to date from the $260,000.00 bond issue.

Wit hthe completion of the works set forth above, a complete water development, transmission and storage unit will have been erected, that will insure an adequate water supply for present and immediate future needs, entirely independent of the Verdugo Canyon supply. The Verdugo Canyon supply will eventually be all needed for the foothill districts, that is the district of the city lying above the 660 foot elevation, including Verdugo and Sycamore Canyon districts. These are yet to be supplied with distribution systems. An additional bond issue of possibly $125,000.00 will be necessary to complete the Verdugo Canyon development works which should include in addition to the pressure main, pumping plants, etc., a large reservoir similar to the Verdugo Road Reservoir. There are a number of matters as between the city and other owners of water rights in Verdugo Canyon concerning which a complete understanding should be had before a bond issue for the installation of Verdugo Canyon water development works as set forth above is submitted to the voters, inasmuch as it will be practicable to go ahead with these development works before such understanding has been reached. These matters can be taken up with those who hold the larger interests on the basis of working out a plan to supply water for their property in that vicinity that cannot be supplied from the present city mains and reservoirs. Before the city assumes any obligations to furnish water to Verdugo Canyon district, the owners of all property for which a city water supply is to be furnished should be required to quit claim to the city all of their Verdugo Vanyon water rights.

In this connection there is a contract pending with the F. P. Newport Company, whereby the city may by meeting certain conditions, acquire the present water system in that section, the F. P. Newport Company's water rights and certain casements for development works. An understanding and agreement as to all these matters might well be had before request is made for bond issue, covering cost of proposed development works for Verdugo Canyon.

14.

In Regard to Distribution System for Verdugo Canyon District.

The property holders of that section have not as yet participated in any expense in connection with the city water department, except their proportionate part of about $4,000,00 that was originally invested through tatxation when the water business was taken over by the City of Glendale. Nature has placed an abundant supply of water for that section in the valley itself. The City of Glendale by the investment of approximately one half million dollars has developed on independent supply for the main Glendale Valley, which leaves the Verdugo Canyon water supply available for the foothill district as set forth above. Additional development works costing probably $125,000.00 as also set forth above, should no doubt be financed by general revenues of the water business. It would seem right and proper for the Verdugo Canyon District to follow the plan followed by the Grand View district, and as is proposed to be followed by the Sycamore Canyon district, and other foothill sections, that it, form a municipal improvement district and issue bonds thereof sufficient to cover the cost of a distributing system, for that district together with local reservoirs and a booster pump tto raise the supply from the reservoir that will be located in center of the valley, at about the 900 foot elevation, to the 1100 foot level.

15.

Additional Water Supply.

As stated before the completion of the development works, now under way, will give the city a supply of water sufficient for present and immediate future needs, nevertheless, the present growth and expansion of the city, demands that immediate consideration be given to the purchase and installation of a third booster pump, which would be a duplication of the one just installed, two or three additional wells and a large reservoir, a duplication of the Verdugo Road Reservoir, to be located on the Grand View reservoir site, where the small reservoir is now being constructed. This will probably require a bond issue something like $125,000.00. It is essential that these improvements be provided for in the near future, and taken together with the proposed development for Verdugo Canyon, a bond issue of approximately two hundred and fifty thousand will be required. Under the present policy, the revenues of the water business will be required to carry the interest and redemption on these proposed bonds, in addition to bonds now outstanding in the sum of $551,500.00. With such heavy capital investments pending together with those already made, it will be necessary to conserve the revenues of the water department in every way in order that they may be met from revenues based on the present low rates.

16.

In Regard to Water Rates

In the several estimates and reports in regard to the water business that we have submitted heretofore, we have endeavored to make it clear that it is probable that an increase in water rates will be found necessary, if the revenues of the water business are going to be adequate to meet the amounts necessary for bond redemption and interest on the outstanding bonds issued for water development purposes, and distribution mains in addition to meeting the operating expenses of the water department. I believe that serious consideration should be given to this matter immediately for the reason that the revenues of the water business as yet has not been equal in any fiscal year to meet all the demands upon it for extensions and betterments in addition to carrying the financing of bond issues as stated above. If the policy of providing for replacement and installation of service mains by assessment on property benefited thereby is strictly adhered to, it will still tax the revenues of the water business to the limit to carry the $551,500.00 of water bonds now outstanding, and those that will be necessary in the immediate future, for general development works and distribution mains and as stated before, it is probable that rates will have to be raised somewhat to do this.

In this connection I would call attention to the need of the installation at the main pumping plant on San Fernando road, and at the Verdugo road reservoir, of motors or other practicable water measuring devices to register the quantity of water entering the distributing system, so that the actual and comparative cost of pumped water and gravity water may be obtained and also that the per cent of loss as between the amount of water entering the distributing system and the amount sold and charged to consumers may be had. These are very important items in determining the eficiency of the operation of the water system, and they also afford the main basis upon which to base charges for water furnished consumers. The absence of ability to obtain these figures has handicapped the water department somewhat in the past. I therefore would recommend that these installations be made.

In Regard to Streets

17.

Opening of Los Feliz Road Between San Fernando Road and Central Avenue by Which that One Block of Los Feliz Road Will Be Widened to 60 Feet, Which Will Permit of a Fifty-Six-Foot Roadway.

It is fortunate that these proceedings are well advanced at this time as the traffice in that one block attimes taxes the capacity of the present width of roadway. Owners of property in the two blocks east, extending from Pacific avenue to Glendale avenue, have requested plans for the widening of that portion of Los Feliz road. They have been promised that three or four alternate plans with estimates of cost will be prepared and submitted to them at an early date. The plan favored most at the present time is to widen that portion of the street by taking about five feet on either side of parkings for road purposes. This can be done without opening and widening proceedings, and made to conform nicely at Central avenue, with the present plan of widening from Central avenue to San Fernando road.

18.

The Plan for Widening East Broadway At

San Fernando road is well under way, and with the securing of the necessary assessments which have all been promised, the improvement may be brought about within the next six months.

19.

In Regard to Patterson Avenue

It is unfortunate that the proceedings for opening Patterson avenue, will have to be abandoned owing to errors in description. It is to be hoped, however, that new proceedings will be initiated at once, and that the larger property holders will cooperate with the city in bringing about this most desirable improvement.

20.

In Regard to the Opening and Improvement of West Broadway

A plan for this has been furnished the citizens' committee, who have undertaken to obtain the necessary signatures to a joint deed conveying to the city a right of way for streett purposes, over a strip of ground sixty feet in width, extending to San Fernando road, on a line with the present improved portion of Broadway, extending west from Pacific avenue.

EXCELLENT SERVICE!

IT IS MOST CONVENIENT to telephone your order to the GLENDALE PHARMACY, at 638 East Broadway, and have it delivered at your door, within a few minutes! Then, aside from the convenience, you know that because they are out of the high rent district, the Glendale Pharmacy can afford to sell for quite a good deal less than others! Yes, and if you call Glendale 145, you'll find their prices reasonable, their stock complete, and their service excellent!

* * *

YOUR HEART WOULD THRILL WITH PRIDE!

WHEN THE PRICE OF A CAR has been spent again in just the extras and accessories that would tend to enhance its beauty you may be assured that it is a car well worth having! Many a heart would thrill with pride to own this Sheridan, which Mr. Murphy is showing at the CLUB GARAGE, 107 East Colorado street. For it is a beautiful car,—upholstered in the genuine blue Spanish leather, exquisitely hand designed, and with a top of patent leather, lined throughout with velvet! It is equipped with expensive tonneau shields, and special blue disc steel wheels! And, the two little silver side body lights are ultra smart! It is far too marvelous to even attempt to describe—but drop in at the Club Garage and see for yourself—then ask Mr. Murphy the price. You will be simply amazed!

* * *

AND IT IS A CHARMING SHOP!

MILADY MUST COME WITH ME to that adorable little shop which has just opened on East Broadway, at 207! SHERROD'S SPECIALTY SHOP FOR WOMEN AND CHILDREN is truly delightful! Their stock is one of the finest and most complete to be found, as they offer a line of the loveliest silk and knit

underwear, fine silk hose of the best quality, (but most reasonably priced), and a line of dainty neckwear! And in the corset department, Mrs. Quackenbush, has selected as her assistants, only experts. There is such an atmosphere of refinement and hospitality in Sherrod's Specialty Shop that I know you'll find it a pleasure to visit them and look over their stock!

TO ENCOURAGE A LOVE AND BETTER UNDERSTANDING

THERE IS SOMETHING TOUCHING about a child's interest in music. From the first he should be reared in an atmosphere of music, and in communion with the great masters. And particularly, should the child who sings spontaneously, be encouraged in that form of self-expression, for it is one of these childish characteristics that may promise great things. Far from discouraging such a child in his efforts to make music for himself, by learning to play the piano well, it serves as an incentive, to achieve the same mastery over the instruments as those whose recordings he has grown to know and love! And, thus, before him, is always his goal, for which he is continually striving and hoping to attain,—something just a little farther ahead—and something for which he may always work and study! And, there is the imitative faculty, which is so highly developed in most children! With a model of such perfection as Gadowsky or Ornstein always before him, the Ampico has set a standard of perfection that will always be remembered and cherished in after life. This, is aside from the Ampico as a means of entertaining and interesting children—for you will find the kindergarten rolls for the Ampico invaluable in helping them to a better understanding and love for music. Even a little knowledge of music adds greatly to one's pleasures in listening to it it. And when music has thus been made a feature of the home life it imparts this knowledge and the child brought up with this knowledge is provided with a certain means of entertainment for his whole life—and a higher ideal of what that entertainment should be. At the BARNES SHUCK MUSIC COMPANY, of 211 North Brand boulevard, you may hear the world's masters playing on the Ampico in either the Knabe, Franklin or Haines Bros. pianos!

SUCH ATTRACTIVE GLASSWARE!

AT THE GLENDALE FURNITURE STORE, of 606-608 East Broadway, you'll find a most intetresting table filled with attractive glassware of all kinds. There are water pitchers, glasses, dishes and bowls of all sizes and sorts! And, oh! my yes, there is a most attractive set with a heavy gold band trimming, that would lend charm to any table — and at a price too reasonable to quote!

* * *

THEY ARE JUST THE THING FOR SCHOOL!

WHERE IS THE GIRL who wouldn't lose her heart to the jaunty tams at GILBERT'S MILLINERY, 123 South Brand boulevard? There are a few of white suede cloth, for only $1.25, and others in colors, made to order for Gilbert's, are $1.95! For the woman who delights in tailored effects, is a charming Knox model—a sailor of hatter's plush—with either straight, or rolled brims — at only $5.00! The color is black. Don't lose another minute for there are not many left, now!

* * *

The long waistline silhouette is favored for children's fall dresses.

Net hairbands have crested work that gives the effect of rhinestones.

YOU SHOULD most certainly take advantage of the opportunity which the NEALE & GREGG HARDWARE CO. is extending you to replenish your kitchen utensils! In their window at 107 N. Brand boulevard, you may see the specials which will be on sale until September 3. Yes, it is a Wear-Ever Aluminum Special—and a most unusual one, too! On all Wear-Ever kitchen utensils the prices have been greatly reduced for this sale! Just for instance — the one quart sauce pans which regularly sell for $1.15 are now marked down to 39c! Think of it—only 39c! And there's another treat in store for you at Neale & Gregg's booth at the Merchants' Exposition—for I've heard it said that the specials which they will feature daily are simply phenomenal—far surpassing anything yet! Don't miss it!

* * *

FOR SERVICE THROUGHOUT THE YEARS!

QUALITY AND WORKMANSHIP are the two factors that must withstand the years, if the floors of your home are to retain their modern freshness. A hardwood floor is ever attractive and will give you excellent service, when laid by the GLENDALE HARDWOOD FLOORING COMPANY, of 304 East Broadway—for through years of experience, they have become experts in their line.

A THING OF BEAUTY AND UTILITY!

WASHER WILSON has just received his new shipment of the full sized eabinet model, A. B. C. Electric Washer! Yes, and for but little more than the cost of a good sized family washing, you may have one delivered in your home—for Washer Wilson will arrange the balance on easy terms: Most women prefer the A. B. C. because it reverses after every turn, but never changes gears—so eliminates all danger of wear and tear on the finest of fabrics! Another advantage of the A. B. C. Super Electric, is the fact that it requires so little attention—when it is in need of oiling, the whole side may be loosened and slipped off, and if you're crowded for space, the wringer may be easily detached, and lo! your new A.B.C. is an ideal table, with a very smooth and attractively finished top, and at just a comfortable height! The A. B. C. is also the only machine to which an electric mangle may be attached, and run! Washer Wilson carries the A. B. C. Electric Washer in five different models at different prices, so stop in at 140 South Brand and look them over!

* * *

A tailored and buttoned over blouse suggests a Russian influence.

MARTHA MALICIA

THIS IS BABY'S CHANCE!

TIME IS FLEETING—so get out your kodak today and snap the children in some characteristic poses—then have the films developed at the PHOTO SHOP, 219 East Broadway! During the next week, in their booth at the exposition, all children's pictures brought in will be displayed,

and to the one who is awarded the most votes will be given an enlargement, colored and framed. You may have several copies framed, if you wish, for at the Photo Shop, they make frames to order—in any size or design, and at practically the factory cost—as Mr. Smith does the work right there!

* * *

Fur is used as trimming, sometimes in brassards above the elbow or in deep cuffs to the elbow.

* * *

YES, A DEEP SECRET!

IN YOUR DAILY CUP of coffee lies the secret of health! Indeed, yes, for a poor grade of coffee will undermine your strength more quickly than anything else, whereas a cup of well roasted and blended coffee of the best grade, when properly prepared, will simply fill you with energy and pep! I always recommend BOOTH'S of 318 East Broadway, for the very best of coffee and teas—as he handles only the highest quality, and when you go down to Booth's ask him just how you should prepare your daily beverage to get the most healthful results from it—for there is a secret in the preparation of coffee!

* * *

AND YOU CAN'T START ANY SOONER!

A THOROUGH SPONGING and pressing by experts such as the BRAND CLEANERS of 217 East Broadway, will work wonders towards making your fall garments presentable after their long stay in the closet.

* * *

H-O-M-E

VANDENHOFF, of 205 North Brand boulevard, is offering a delightful little four-room modern bungalow for only $3800! It is absolutely new, with the built-in conveniences that make modern bungalows so popular—and the large lot is covered with lovely fruit trees. Mr. Vandenhoff will sell on exceedingly easy terms—only $1000 down, and the balance in small monthly payments!

Boy and Girl Farmers To Show at Riverside

We have just received a copy of the premium list for the Southern California Fair which will be held at Riverside, October 11 to 16. This will be the ninth annual session of this fair and each year has worked a steady and consistent growth and develpoment. This year, the premiums in practically eevry department show marked increase over last year and in the important agricultural and livestock departments they rank with those of the State Fair.

An interesting feature of the premium list of Riverside Fair is the special attention given to the boys' and girls' clubs and all forms of junior agricultural work which come under the United States Department of Agriculture and the State Agricultural College extension work. There has been great activity in the junior club work this year and it is estimated that from 56 to 60 clubs from all parts of Southern Caliorfornia will contest for premiums at Riverside.

The livestock judging clubs from high school agricultural departments from all parts of the State will be judged at Riverside by a committee of judges selected by the State University. It is planned to send the winners in the contest to the National Livestock Exposition.

SAM BROWN TELLS OF TRIP AND CONDITIONS

"We ought to be very thankful for the prosperous business conditions out here in Southern California. They are better than I found any where in my three months' tour," declared Sam Brown, 1243 Mariposa street, as the final summing up of the impressions of a three months' tour of Canada and the United States, from which he has just returned.

From here he went by steamer to Vancouver and then crossed the four great provinces of Western Canada, where he has numerous relatives. His tour included many automobile trips out from the leading cities, which gave him a very good idea of the country. From Winnipeg he went on to the Dakotas and Minnesota, coming home by way of Chicago, and Salt Lake.

"The wheat crop of North Dakota would have been good," said he, "but for rust, which had caused damage which could not be estimated. They were threshing when I was there.

"Minnesota had a good average wheat crop but not as much is raised there as in the Dakotas and Canada.

"Saskatchewan and Manitoba are almost entirely devoted to wheat and their crops are good. In Alberta, which is divided between wheat and cattle the wheat does not show up as well for lack of rain.

"Timber, mines and fish are the chief industries of British Columbia.

"Everyhere I went in Canada I found the country recuperating nicely from war, which cost them more than it did us. One scarcely saw a family that had not lost some member. They did not talk about the war debt, however, so I judged it did not worry them much.

"Being a builder I took special interest in sizing up the building going on. We ought to be very proud of our activity here. I saw nothing like it in my travels anywhere else. I consider it the best indication of prosperity. In Chicago regular business is going forward, but fraud had tied up all departments of building.

"I was gone three months and I can say emphatically that nowhere did I see evidence of any such prosperity as we are enjoying here.

"Nearly everyone I saw talked about—not California, but Los Angeles—and they were all talking about visiting it. More would come from Canada could we get our exchange equalized. They object to paying that excess.

"Trains coming this way were comfortably filled and from the talk I had with the people I met I am sure there will be heavy tourist travel to Southern California this coming fall and winter.

"One matter in which the Canadians are surpassing us greatly impressed me and that is in the provisions they have made for disabled returned soldiers. In every province the government has established hundreds of sanitariums with full staffs of doctors and nurses where men in poor physical condition are cared for. In connection they are establishing manual training to instruct these men in the operation of machinery and other suitable employments.

"I found conditions rapidly getting back to normal both in the United States and Canada and from that viewpoint my trip was very encouraging.

A Nebraska inventor has invented a combination mangle and wringer, which, coupled with an electric washer, is said to reduce the washday drudgery to a minimum.

MEAT INJURIOUS TO THE KIDNEYS

Take a Tablespoonful of Salts if Back Hurts or Bladder Bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but becomes weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Luster With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

Survey of Glendale Conditions

(Continued from page 7)

The city has procured a certificate of title at an expense of $30.00, which sets forth the names of property holders whose signatures are necessary on this deed. This has been done to aid the committee with the understanding that the city will be reimbursed for the $50.00 if the plan is carried out. It might be well to call this committee together and ascertain if there is anything further that the city can do to assist them. Mr. Doner is the chairman of this committee.

21.

In Regard to Opening and Extension of Ivy, Hawthorne and Salem Streets and Wilson and California Avenues, From There Present West Terminus to San Fernando Road.

Petitions have been requested for these extensions and have been prepared and placed in the hands of parties who are circulating the same.

22.

In Regard to Reconstruction of Oiled and Graveled Streets

There are 47 miles of streets in the city that have been improved by grading and oiling the natural soil, and in some instances a small amount of rock has been ued as previously reported. These streets are all in need of reconstruction at the present time. The material in the roadways can be worked over by completely pulverizing it and bringing it to a smooth surface in such a manner as to produce a roadway that will stand more and heavier traffic than as originally constructed. These roadways should then be resurfaced with oil, No. 3 rock and screenings. This reconstructing and resurfacing will cost, if done directly by the city on a cash basis, approximately $25.00 per fifty foot lot. Heretofore, the city has not had the authority to do this work directly, but would have to resort to the legal procedure of one of the local improvement acts, and let the work by contract. This would add thirty to forty per cent to the cost. It has been recognized for some time that these streets need attention. It has been impossible, however, to reconstruct them with funds in hand for street maintenance. During the war and the reconstruction period following the war, when all costs were high, it was thought best not to undertake a general plan of reconstruction, but to wait for a readjustment of prices, and for authority, which we have obtained under the charter to do this work directly on a cash basis, eliminating, inasmuch as possible, all overhead expenses. Article 6, Section 10 of the charter, gives us this authority. We would therefore suggest that an ordinance be prepared whereby the city could proceed to reconstruct all of these streets within the next year or so, and levy assessments for the cost thereof against the lots benefited thereby. This work should be done on a cash basis. If a bonding plan is adopted, 10 to 15 per cent will be added to the cost, and those who pay by cash will have to pay that as well as those who take advantage of the bonding plan.

In order to carry out the above plan it would be advisable to request the voters of the city to authorize a bond issue of about $40,000.00, a small portion of which should be used to purchase equipment and the balance used as a revolving fund to finance the work under construction. All amounts advanced to be repaid when work is completed. A percentage should be charged against this work to meet redemption and interest on these bonds. It is probably not best for the city to undertake to extend the plan outlined above to the heavy street construction. Temporary work such as oiling, in order to avoid having to sprinkle roadways and alleys, might be done under this plan, where property holders are not ready to go ahead with permanent paving. There are probably twenty miles of streets within the city limits that have never been improved in any way by the property holders. During the extensive building operations of the last three years, a large portion of the property fronting on these streets, has been improved and it would seem advisable to at least have the roadways oiled in the same manner as Maple street, east of Glendale avenue has been improved, and as Arden avenue, west of Central avenue is being improved. This class of construction makes a good temporary roadway that will serve well for four or five years, and if built on proper grade, will form good subbase upon which a finished surface may be placed later, when the property holders desire it. It is our belief that there is one thing that could be done during the next year or so, that would enhance values generally, and add to the attractiveness of the city, than to reconstruct and improve as set forth above, of the resident street system of the city.

23.

In Regard to Construction of Swimming Pool and Improvement of Paterson Avenue Park.

Upon a favorable report from Attorney J. C. Thomson of New York, as to legality of bond election proceedings, authorizing the issuance of $22,000.00 of bonds for the purpose of constructing a swimming pool at Patterson avenue park, and the payment of the balance of the purchase price thereof, no doubt your Council will proceed to have plans and specifications for swimming pool drawn and the swimming pool constructed at an early date. The swimming pool will no doubt be ready for use before next summer, and there will be a large number of people attracted thereby to Patterson avenue park. Therefore it might be well to give immediate consideration to improving the park with roadways, walks and lawns. By commending this work without delay, a considerable portion of the park may be well improved before next summer. A large lawn would do more than any other thing to make the park attractive. There is an appropriation of $2,000.00 in the budget to cover the cost of labor for the improvement of Paterson avenue park. There is a balance of something over $4,000.00 unappropriated also available for the improvement of this park and the purchase of equipment therefor.

24.

Ordinance Pending Under Unfinished Business.

(a) Building Ordinance. The building ordinance has been completely revised and is now in the hands of building superintendent having been checked over by city attorney. Fire districts, as tentatively revised have not been included in this ordinance. It has been suggested that these be embodied in an additional ordinance.

(b) Zoning ordinance, embodying recommendations of zoning committee has been prepared by city attorney and was referred by Board of Trustees to Committee of the Whole. The description of the several districts suggested by this ordinance have not been embodied therein. This matter was left over for future consideration.

WINDOWS OPENED AFTER 32 YEARS

(By International News Service)

SYRACUSE, N. Y., Aug. 26.—Thirty-two years ago the local postoffice building was made ready for occupancy. During that period postoffice administrations, Republican and Democratic, have come and gone.

Since that distant time the outside windows of the local postoffice have never been opened. In warm weather and cold they have remained closed. The Will Hays' system of efficiency, and welfare, too, hit Syracuse recently. It was during the extreme hot wave. The windows were ordered to be opened—after 32 years.

NEW DRESS FOR STREET LIGHTS

Within a day or so you will have to wear dark glasses when traveling along the streets of Glendale at night. Ten dozen small and ten dozen large globes for the ornamental lighting posts of Glendale have just been received by the public service department, and during the next few days these will be used to replace a number o the globes that have been broken by various causs. So you had better place your order for dark glasses with some local merchant at once.

Coal in the Phillippines

A vein of coal has been discovered in the Philippines which is said to be up to the quality of the Chinese fuels. The amount has not been ascertained, but it is certain that it will answer the demands of the island for many years.

REVIEW OF NATIONAL W.C.T.U. PROGRAM AND ITS AIMS

Mrs. J. A. Starr, 132 South Isabel street, returned Wednesday night from attendance on the National W. C. T. U. convention, held in San Francisco, from the 18th to the 23rd.

She reports a very wonderful gathering with audiences of three and four thousand persons at many of the sessions.

The afternoons were given to departmental conferences in various small halls, illustrated lectures on child welfare and health which proved intensely interesting. One in particular was on "Foot Follies," and showed the injurious effect upon health of bad shoes. Mrs. Starr wishes it might be given in Glendale and thinks it is within the realm of possibility later in the year.

The officers who have served for several years were unanimously re-elected, Miss Anna Gordon continuing as president. The death of the presrdent of the World W. C. T. U. has made her acting president of that organization of which she was elected vice-president. She will preside at the World Convention to be held in Philadelphia in November of the present year. Referring to other features of interest, Mrs. Starr said:

"Sunday afternoon Mrs. Mary Harris Armour of Georgia gave the convention sermon, her subject being 'Opportunities.' About four thousand were present and I never saw people more stirred by a great vision of world opportunity. The chief objective of the convention and its slogan was 'World-wide Prohibition.'

"We heard very interesting things on prison reform, on citizenship and Americanization.

"A large number of delegates are in Los Angeles for a few days before returning to the east and the W. C. T. U's of Southern California are giving them a picnic reception at Lincoln Park, Saturday."

Mrs. Starr was herself a speaker at the convention on child welfare, social morality and health.

WORLD'S PROGRESS SHOWN BY LETTER

CLEVELAND, Aug. 26.—A striking indication of the world's progress was shown here recently when the one hundred and twenty-fifth anniversary of the city's founding was celebrated. At that time a letter written in 1896 on the occasion of the centennial celebration was read. It contained the following questions, to be answered now:

"Have women the right to vote?"

"Has prohibition been achieved?"

"Has the North Pole been discovered?"

"Have people learned to fly?"

"Is the horseless carriage a reality?"

All the questions moot then, are answered in the affirmative.

Pacific Coast Sports Reported by Experts

By FRANKLIN B. MORSE
Pacific Sports Service

T. Morry Dunn, prominently associated with athletic activities at the Multnomch Athletic club of Portland, Ore., is figuring on having the club strongly represented at the Pacific Coast track and field championships to be held at Sacramento, Calif., on September 9.

Among those who will compete under the club's colors will be Eldon Jenne, of Washington State college, and holder of the University of Oregon, javelin, discus and shot artist; Hurley, of the University of Washington, sprinter, and Jess Well, Stanford University, sprinter and hurdler. It is not yet sure that Wells will be available but the others are expected to be on the team.

The Olympic Club and the Los Angeles Athletic Club also will be represented with strong teams and the men of both these organizations now are under strict training under the supervision of their respective club trainers. It is several years since the event last was held.

* * *

Suzanne Lenglen, the little French tennis expert, has expressed her fears that the sporting public of the United States has catalogued her as a "poor sport," owing to her dramatic collapse on the tennis court, and her sole desrie seems now to seek an opportunity to set herself straight. We have gone over hundreds of newspapers, published in all sections of the United States and we have yet to find any comment in connection with the incident which does not accord Miss Lenglen full measure of sympathy. Her fears are groundless.

* * *

The possibilities of Babe Ruth establishing another home run record appear to be most bright at this writing. He has only nine more clouts to make in order to turn the trick and, at the rate he has been going for the last two weeks, it looks like a safe bet that new figures will be hung up. Just how big these figures will be would be a mere guess, but how many do you think he'll make?

* * *

Reports from Princeton University are to the effect that their football combination, which last year was considered the strongest team in the East, will be as stong, if not stronger than it was last season. The University of California, accounted the master team of the Pacific Coast, will lose none of its strength, the three players it loses being replaced by second strong men who are accounted worthy of their predecessors. It looks very much as though there would be a lot of pressure brought to bear at the close of the season to try and get these two great football machines on the gridiron together, providing, of course, they get through the season in the manner expected of them. Whether or not a meeting can be arranged is another matter. There are a hundred and one things that enter into consideration and the chances may be said to be entirely unfavorable. At least, it is dougtful if the Princeton management would be willing to play in so warm a climate as Southern California after coming out of the frozen East, a condition which prevails around New Year's.

Lauren Upson, a young Sacramento golfer, still in his teens, is attracting considerable attention for the accuracy and steadiness of his play. There are many who believe that, with more experience in tournament play, he will make a name for himself on the links. These promising looking players among the younger generation are cropping up all over the coast at short intervals. Evidently we are beginning to develop the "sand lot" variety of performer, the same as in baseball.

* * *

Newspaper reports continue to state that Georges Carpentier will and will not return to the United States to battle Gibbons for the Light Heavyweight title of the world. It is evident that somebody is going to be credited with being a good guesser.

* * *

Few persons have been accorded the full sympathy of the athelic world as has Suzanne Lenglen, the clever little French tennis expert who collapsed during a recent match on account of illness. It is evident that she was poorly advised. The disappointment of a crowd, temporarily, should not count when the health of the individual is concerned. It is doubtful if the spectators could have been any more disappointed than they were, and they would have been spared the spectacle of seeing a brave little women forced to succumb.

* * *

There is plenty of interest in polo in the Hawaiian Islands. The first game of the elimination pole tourney for the Inter-Island championship will be played at Honolulu on August 27. Interest in the game has been acentuated by the International event played in England, and also by the fine brand of play developed last season on the Islands. The 17th Cavalry team is considered one of the best as it numbers several veterans among Uncle Sam's officers.

* * *

With comparatively new stadiums in the East already outgrown by the crowds clamoring for admittance, it is a question whether or not, the stadia now going up in the Far West are being built with a different eye to the future. In another decade or two, it is not unlikely that crowds will be from a third to two thirds larger than they now are, and it is doubtful if any of the structures are going to measure up to the needs of twenty years from now. They cost a lot of money and there is no reason why, like battleships, they should become obsolete by becoming inadequate.

* * *

With the frequency with which Babe Ruth has been making home runs in the last two weeks, he now is seventeen days to the good over last season after having dropped behind for a few days recently. In eleven games he knocked out seven of the four bag clouts. Of course, if he keeps up this wicked average, there is no telling what he will end up with in the way of a new record, but it is likely if even the most ardent of Ruth's admirers believes that he will be able to maintain this pace.

* * *

A new mational men's double championship team was introduced with the tournament that opened at Boston during the present week. William Johnston and "Peck" Griffin both of San Francisco won the title last year, but the team has been broken up owing to Griffin's inability to go east this year. Johnston, however, is in the east and playing as good tennis as he has ever shown. No announcement has been made to date just whom he will team with, but it is more than possible he will team up with his Davis cup partner, Bill Tilden.

The Pacific coast is well represented in the list of national doubles champions since that day in 1912 when "the comet" Maurice McLaughlin and Tom Bundy wrested the title away from Touchard and Little, the holders.

Many of the present day tennis followers have forgotten how the Pacific Coast "broke in" to the national title class. Back in 1909 the first coast doubles team went into the nationals when McLaughlin and Janes went into the challenge round aaginst Hackett and Alexander. The Californians lost and in 1910 Tom Bundy and Hendricks representing the coast defeated P. Gardner and L. Waidner in the preliminary only to lose the challenge round to Hackett and Alexander who had successfully defended their title since 1907. In 1911 the coast men failed to do anything sesnsational and then came that memorable day at Newport, August 26, 1912, when McLaughin and Bundy topped the four years of trying the Pacific coast had made and defeated Touchard and Little 3-6; 6-2; 6-1; 7-5.

From that date on the tennis players of the Pacific coast have been a thorn in the side of the east. In those ten years six times the Pacific coast has won the title and in 1919 Johnston and Griffin of the coast lost to the great Australian team of Brooks and Patterson. It was the first time an Australian team participated and it is a logical point to make that in 1919 the team of Johnston and Griffin was the best American team, in other words the coast has seven times been victors, out of ten. McLaughlin and Bundy won the title three times, Johnston and Griffin won it the other three and lost one series.

In the coming series the Pacific coast has some worthy representatives. Johnston as said is an undecided quantity as to his team mate. It may be Tilden or it may be Willis Davis of San Francisco. Besides these two the Kinsey brothers, Bob and Howard, are both entered as a team and between this quartet it is hoped the coast may retain its hold on the title.

The list of doubles winners of the National title since its inception in 1881, follows:

1881—C. M. Clark, F. W. Taylor.
1882-84—R. D. Sears, J. Dwight.
1885—R. D. Sears, J. S. Clark.
1886-87—R. D. Sears, J. Dwight.
1888—O. Campbell, V. G. Hall.
1889—W. Slocum, H. Taylor.
1890—V. Hall, C. Hobart.
1891-92—Campbell and Huntington.
1893-94—Hobart and Hovey.
1895—M. Chase, R. D. Wrenn.
1896—C. B. and S. R. Neel.
1897-98—Ware and Sheldon.
1899-01—Davis and Ward.
1902-03—R. F. and H. L. Doherty.
1904-06—H. Ward, B. Wright.
1907-10—F. Alexander, Hackett.
1911—R. Little and Touchard.
1912-14—McLaughlin and Bundy.
1915-16—Johnston and Griffin.
1917—Alexander and Throckmorton.
1918—Richards and Tilden.
1919—Brooks and Patterson.
1920—Johnston and Griffin.
1921— ? ? ?

Punishment for Profiteers

The anti-profiteering campaign in England has resulted in the conviction of 1,320 persons, with more in prospect. Many of these were handed prison terms and $35,000 in fines collected.

SAY PHOSPHATE DEAL VIOLATES TREATY

By FRANK E. MASON
International News Service Staff Correspondent

BERLIN, Aug. 26.—German phosphate magnates are looking with anxious eyes at the British exploitation of the Island of Nauru, below the equator, directly south of the Marshall Islands. The island possesses one of the earth's richest phosphate deposits valued at approximately $1,250,000,000.

Under the treaty of Versailles the island was taken from Germany and placed under a British mandate. A year ago the governments of Australia, New Zealand and London made an agreement to exploit the island and to sell phosphate to these countries at cost price, whereas other importers will be charged the world price.

Germany protests that this is a violation of the twenty-second article of the peace treaty, which guarantees an open door and equal rights to all countries under the mandates.

MARTHA IS GLAD

Martha Malicia is receiving with great pleasure recipes from Glendale housewives, and will welcome more of them. She is in Glendale to serve its people and is always glad to pass a good thing along. If any of the readers of the Glendale Daily Press have special recipes they are asked to send them to her for the benefit of other housewives.

The famous Leaning Tower of Pisa is of pure white Carrara marble in the Gothic style. Its departure from the perpendicular has been variously interpreted, but there is little doubt that it rises from the softness of the soil on which it stands and which has given way. Notwithstanding its threatening appearance, it has now stood for more than 600 years without rent or decay.

SOCIETY WOMAN NOW EARNING MONEY

DENVER, Colo., Aug. 26.—Forsaking the luxuries of a social career, with its accompanying display of rich gowns and rare jewels, and travel in upholstered limousines and palatial yachts, Mrs. Eulalia Lepriete Campbell, widow of a former member of the staff of the late Lord Kitchener, is now seeking contentment in the competitive marts of trade.

Mrs. Campbell was for years a social favorite in several European capitals and has traveled extensively in all parts of the world. During the World War she was a member of the so-called "probe section" of the British Army, and, in her own words, has stood "many a time ankle-deep in human blood."

Her husband was killed in the first Battle of the Marne.

Mrs. Campbell has opened an embroidery and lace work "emporium" in Denver, where she personally cares for the wants of her customers.

TURTLES MAKE NOVEL WINDOW DISPLAY

The Clark Electrical Store on East Broadway has a novel advertising scheme in its windows. Four turtles, each having a letter on its back, were placed in the windows. The first person finding the turtles in a row spelling I-RO-N was to be presented with a Hotpoint iron, absolutely free. Today Bill Alexander, one of the youngest Ford salesmen on the sales force of the Glendale Ford agency, found them in a row spelling iron, and promptly claimed the iron. There are still more irons to be given to other persons who find them in this formation.

A new high-speed lightweight automobile designed by an Englishman is narrow gauge, tracking only 45 inches. The car, fully equipped, weighs but 600 pounds.
